LONDON TRIES TO SCOUT THE REPORT

LONDON, APRIL 11.—A DISPATCH TO THE DAILY MAIL FROM BRANDFORT, DATED SUNDAY, SAYS:

"YESTERDAY GENERAL DE WET INFLICTED THE THIRD DEFEAT OF THE BRITISH WITHIN A WEEK AT MEERKATSFONTEIN, KILLING AND WOUNDING 600. HE CAPTURED 900, WITH TWELVE WAGONS, LOSING FIVE BOERS KILLED AND NINE WOUNDED."

THE DAILY MAIL PUBLISHES THE FOLLOWING, DATED APRIL 10, FROM LOURENZO MARQUEZ:

"THE NETHERLANDS RAILWAY COMPANY PROFESSES TO HAVE RECEIVED A TELEGRAM REPORTING A BOER VICTORY NEAR KROONSTAD, THE BOERS CAPTURING 900 BRITISH."

COMMENTING UPON THIS THE DAILY MAIL REMARKS: "THERE IS A MEERKATSFONTEIN ABOUT FIVE AND A HALF MILES SOUTHEAST OF KROONSTAD, BUT IF THE REPORT BE TRUE THIS CAN HARDLY BE THE PLACE."

THE DAILY NEWS HAS THE FOLLOWING FROM PRETORIA, DATED MONDAY, BY WAY OF DELAGOA BAY:

"IT IS OFFICIALLY ANNOUNCED THAT A BATTLE HAS BEEN FOUGHT SOUTH OF BRANDFORT, IN WHICH 600 BRITISH TROOPS WERE KILLED AND WOUNDED AND 800 TAKEN PRISONERS.

"LORD ROBERTS IS DECLARED TO BE FINDING GREAT DIFFICULTY OWING TO SCARCITY OF WATER."

ROBERTS MAKES REPORT.

London, April 11.—Lord Roberts wires to the war office from Bloemfontein under date of Tuesday, April 10, as follows:

"The enemy have been very active during the past few days. One commando is now on the south bank of the Orange river, not far from Aliwal North, while another is attacking Wepener. The garrison there is holding out bravely and inflicted serious loss on the Boers. Major Spring, of the Cape mounted rifles was killed. No other casualties have been reported as yet.

"The troops are being moved up rapidly. A patrol of six men of the Seventh dragoon guards, under Lieutenant Wetherly, which has been reported missing since April 7 have returned safely."

As the foregoing does not mention the alleged British reverse on Saturday at Meerkaatsfontein, the Boer telegrams are not credited at the war office and they are further discredited on account of the discrepancies in the dispatches, as Meerkantsfontein in one message is located near Brandfort and in another it is located southeast of Bloemfontein the places being 100 miles apart.

General Gatacre's return to England is accepted as being in the nature of a recall, though no reason is given for it and it will be associated in the public mind with his lack of success.

Lord Roberts criticised his management of the Stormberg attack and possibly Gatacre's having arrived an hour and a half too late to rescue the Reddersburg force may have decided his return.

General Rundle, seemingly, succeeds General Gatacre and, according to a dispatch from Bloemfontein, the commanders of several brigades are about to be changed.

The Reuter Telegram company's correspondent at Aliwal North, wiring at 9:30 this morning, says:

"There is no further news from Wepener. Too cloudy to heliograph. More British troops are arriving."

THE BOERS PROTEST.

It is learned that the Boer governments have formally notified Portugal that they consider the shipping of British troops and munitions of war to Rhodesia by way of Beira, Portuguese East Africa, to be tantamount to hostile action. This, however, will not stop General Sir Frederick Carr[illegible]en's force from entering [illegible] Boers will [illegible] make reprisals upon Portugal remains to be seen, though the best informed opinion here inclines to the belief that the Boers are not likely to back up their protest with action that would bring them into hostilities with still another power.

A TERRIBLE REVERSE.

New York, April 11.—A dispatch to the Tribune from London says:

The seventh month of the war in South Africa opens with reports from Boer sources of another British disaster. If the news can be trusted a terrible reverse has been inflicted upon the British arms. According to an official announcement in Pretoria, telegraphed by the News correspondent, a battle has been fought south of Brandfort, in which the British suffered a loss of 600 killed and wounded, in addition to 800 captured by the Boers.

This intelligence is amply confirmed by the Mail's correspondent on the Boer side, who reports from Brandfort that General Dewet on Saturday defeated the British for the third time within a week, the scene of his last engagement being Meerkaatsfontein.

No confirmation has been received from British sources of the reverse and it will be advisable not at once to give statements of British losses their face value. The present announcements may, after all, be merely a rehash of the Boer version of Sannas Post and Reddersburg, although it should certainly be borne in mind that the Mail's telegram speaks distinctly of a third British defeat.

Evening—When the Boers commenced shelling the British were drilling, and one private was killed and another was wounded before the soldiers were withdrawn from range. Then the naval brigade opened fire and drew a heavy Boer fusilade, and two of the cruiser Philomel's gunners were killed. The naval men stuck to their positions, however, and the Boers unmasked six guns, including a hundred pounder, and shells fell in all the British camps.

After three hours' bombardment the Boer fire slackened and the burghers cleared from a kopje on the right when a British shell lit on the spot occupied by their gun.

Another command was seen moving toward the British left, apparently with the intention of flanking them, but the British shells forced them to retire. The British advance pickets were continually sniped, but few casualties have been reported. In the afternoon the naval brigade again fired a few shells.

It is rumored that a body of Boers has gathered southwest of Elandslaagte with the apparent intention of cutting the British line of communications. General Clery directed today's operations. General Buller visited Elandslaagte today.

ELEVEN KILLED.

Aliwal North, April 11.—The British loss in the fighting at Wepener yesterday was eleven killed and forty-one wounded.

Fighting was resumed today. The British are holding their own well.

WARNS CAPE DUTCH.

Colesburg, Cape Colony, April 11.—In view of the state of unrest across the border Lord Roberts has proclaimed a warning to the Cape Coloninsts that further acts of hostility will be treated with the utmost rigor of martial law.

CANADIANS ARRIVE.

Montreal, April 11.—A cablegram received this morning announces the arrival at Cape Town of the transport Monterey with the Strathcona Horse. All on board were well. One hundred and sixty-three horses died on the voyage.

BRITISH CAMP SHELLED.

Ladysmith, Tuesday, April 10.—The Boers opened fire this morning early, sending shells into the British [illegible] Elandslaagte from three positions widely separated. The shells did no damage. The troops moved out to reconnoitre and found the Boers in strong force and well fortified. A naval 4-7 inch gun replied to the Boers, who have again placed a long Tom in position.

GATACRE RECALLED.

Bloemfontein, Tuesday, April 10.—General Gatacre, the commander of the Third division, is about to return to England.

General Pole-Carew had been appointed to command to the Eleventh division. Several changes are likely to be made in the brigade commands.

TOTAL BRITISH LOSSES.

London, April 11.—To the war office returns of casualties must be added the losses of the last week and the wounded, aggregating about 10,000 men, making a grand total of upwards of 23,000 officers and men put out of action.

MEET IN BIENNIAL SESSION

INDIANA A. O. U. W. AT TERRE HAUTE THIS WEEK.

Reports Show the Order in Fine Condition and Enjoying a Substantial Growth.

Terre Haute, Ind., April 11.—The nineteenth biennial meeting of the Indiana grand lodge of the Ancient Order of United Workmen began yesterday with representatives from 139 lodges present. In the morning there was a parade, and at the meeting later addresses of welcome were delivered and responses made. Last night there was a union meeting of all Terre Haute lodges. There was also a public meeting, at which W. W. Walker, of Milwaukee, supreme foreman, delivered an address. Most of the session was taken up with the consideration of the biennial reports of the officers. This is the first meeting since the grand lodge adopted the classified assessment plan, and there was much satisfaction over the showing made as to membership.

Grand Master Neal said, in his report, that he is satisfied that had the grand lodge failed, at the last meeting, two years ago in Indianapolis, to adopt the plan, that there would have been a loss of more than one-half the membership. During the first six months of 1898 there was a loss of 810 members, owing to the dissatisfaction of the older members, who, under the new plan, were called on to pay a larger assessment. This brought the total in the state down to 6,004. On January 1 last there were 7,579. The increase of young men, between eighteen and twenty-four, for whom the assessment now is only 60 cents on $1,000, has been 150 per cent. There are sixteen more lodges than there were two years ago. The finance committee's report shows the payment of $310,000 in the two years for death benefits, making a total since the first lodge in Indiana was instituted in Terre Haute, in 1872, of nearly $2,000,000. The year 1899 also was a banner year in the order at large, there being 56,330 admissions in the United States.

The average age of membership is forty-two years, but the average of admissions during the last year was twenty-nine, which is the lowest on record. The average age of deaths was fifty years. During the two years 145 holders of the maximum certificate of $2,000 had taken out the $1,000 certificate instead, and eleven holders of the $1,000 certificates increased to $2,000.

THE KENTUCKY CASES.

Frankfort, Ky., April 11.—The attorneys in the contest-cases for the minor state offices have prepared an agreement, which will be signed today. Under its terms an agreed-upon case is to be made up and advanced through the state courts. The intention is to hurry the case through in time for it to be taken up by the United States supreme court with the case involving the title to the offices of governor and lieutenant governor. The hearing of the Coombs habeas corpus case was continued before Judge Cantrill until tomorrow.

BOARD HAS ORGANIZED.

Dr. E. A. Crull has taken his seat as a member of the Fort Wayne board of pension examining surgeons, and the board is now organized as follows: Dr. G. B. M. Bower, president; Dr. J. Hetrick, secretary; Dr. E. A. Crull, treasurer.

NAME R. B. HANNA

NOMINATED FOR CONGRESS BY REPUBLICANS.

CONVENTION HELD IN AUBURN

THE NOMINATION WAS MADE BY ACCLAMATION.

ADMINISTRATION ENDORSED

FAVORS THE PORTO RICAN TARIFF BILL.

[Special to The Sentinel.]

Auburn, Ind., April 11.—Robert B. Hanna, of Fort Wayne, was nominated for congress by the Twelfth district republicans in convention here this afternoon.

The nomination was made by acclamation, there being no other candidate before the convention.

The convention met a little after 1 o'clock and proceeded to business. After organization, business was gotten promptly under way. Resolutions were adopted endorsing the administration of President McKinley, attributing return of prosperity to the administration, approving the new currency law and the administration's policy as to the new island acquisitions.

The resolutions were adopted with considerable enthusiasm.

Mr. Hanna was placed in nomination by Judge W. J. Vesey, of the Allen superior court, who paid the candidate a lofty tribute of praise. There were numerous seconds to the nomination of Mr. Hanna, after which he was made the party's congressional nominee by acclamation, the affair being accomplished with a whoop.

Mr. Hanna made a speech of acceptance in which he said the good times were due to the return of the republican party to power. He declared himself in favor of a protective tariff and the Porto Rican tariff as well. He said he believed in liberal pensions for all veterans and if elected would work for free rural mail delivery throughout the Twelfth district. He declared he did not believe the constitution followed the flag in the case of the republican new island possessions. He wanted to see the republicans remain in power, he said, because it was best for the country.

The venerable Judge John Morris of Fort Wayne, made a speech, eulogizing the nominee, saying he was third of a generation of a family which had done much for Fort Wayne and northern Indiana.

Among others who spoke were Hon. John L. Griffiths, of Indianapolis, republican candidate for the gubernatorial nomination.

Albert C. Robbins, of Auburn, and Charles Nichols, of Lima, Lagrange county, were chosen deelgates to the republican national convention, with Harry K. Scott, of Angola, and Dr. J. S. Griswell, of Columbia City, as alternates. Harry I. Park, of Kendallville, was chosen presidential elector for the Twelfth district.

FIVE PERSONS DEATHLY SICK

SOME FOOD PRODUCT WAS CONTAMINATED.

Family of Rev. C. C. Cissel Has an Unpleasant Experience—Dr. Drayer Investigating.

Five members of the family of Rev. C. C. Cissel were taken seriously ill last night, due to poisonous contamination of some food product. Mrs. Cissel was taken ill shortly after supper. She suffered severe pain and vomited violently. Her aged parents, Mr. and Mrs. Keisling, who are members of the household, were similarly afflicted a little later and Dr. Hetrick was called. The physician administered antidotes and soon relieved the sufferers, but about 11 o'clock, while Dr. Hetrick was yet at the home, Eldrew Cissel, the younger son of the family, grew ill. The patients were at no time regarded as dangerous by Dr. Hetrick, but he says the symptoms clearly indicated poisoning, perhaps from some food product, and it was believed the milk used at supper had been contaminated.

This morning, however, another son, Earl Cissel, became ill after breakfast, and as he had drank none of the milk Dr. Hetrick is inclined to think the trouble may have been in the coffee, though the family has been using of the coffee since Saturday and it has been kept in a tightly closed tin vessel. Samples of both the coffee and the milk are now in the hands of Dr. Drayer, who will make analysis. All the patients are now improving and it is believed there is no danger.

Dr. Hetrick states that the symptoms were those of arsenical poisoning and that a portion of a ox of rat poison, which had been used in exterminating the rodents, remained in the house. It is possible some of this became spilled and in this manner came in contact with some of the food eaten by the family.

INSTRUCTED FOR BRYAN.

Helena, Mont., April 11.—The populist state convention here has selected ten delegates and alternates to the national convention at Sioux Falls. The delegates were instructed for Bryan for president. The convention to nominate a state ticket probably will be held in June.

HIGHER DEGREES ARE GIVEN

SCOTTISH RITE MASONS IN SESSION

Princes of Jerusalem are Closing the Work of the Spring Convocation—The Class.

Darius council, Princes of Jerusalem, convened at 2 o'clock this afternoon at Masonic Temple and the conferring of the fifteenth and sixteenth degrees by this body, together with the banquet at 6 o'clock this evening, will conclude the work of the spring convocation of Scottish rite Masons of the Valley of Fort Wayne. The class receiving the degrees this evening is of about the same size as that of yesterday, and the attendance includes many prominent Masons from this section of the state.

At the banquet this evening H. W Mordhurst will preside as toastmaster, and the following program of responses will be given:

Address to the Class—Hugh Glenn Keegan, 16 degree, Fort Wayne.

Valedictory—Response by a class member, 16 degree.

The Sprig of Acacia—Thomas R. Marshal, 33 degree, Columbia City.

Masonic Charity—Response by Budd Van Sweringen, 32 degree, Fort Wayne.

This morning the visiting members of the Scottish rite fraternity joined their Fort Wayne brethren in attending the funeral service of William Knight, who was a member of the lodge in this city.

TUESDAY'S CLASS.

A class of twenty-five received the degrees from four to fourteen at the session on Tuesday, and the gentlemen composing the class were:

James E. Allen, Huntington.
Samuel Bernhower, Churubusco.
Hary F. Briss, Fort Wayne.
Hary C. Coover, Fort Wayne.
William M. Clutter, Huntertown.
Oliver P. Coffin, Poneto.
Louis G. Ellingham, Decatur.
Samuel M. Foster, Fort Wayne.
Charles F. Field, Geneva.
James H. Grisamer, Churubusco.
Daniel E. Greiner, Portland.
Lewis C. Helm, Decatur.
Lewis C. Hunter, Fort Wayne.
Joseph W. Mitten, Fort Wayne.
B. Paul Mossman, Fort Wayne.
T. Frank Mulligan, Fort Wayne.
Ralph L. Magee, Fort Wayne.
Harry L. Moltz, Decatur.
Jasper N. Parrish, Decatur.
John A. Phipps, Fort Wayne.
Thomas N. Roach, Fort Wayne.
Walter R. Seavey, Fort Wayne.
John Stoneburner, Decatur.
Darwin A. Sweet, Fort Wayne.
Frank A. Welch, Geneva.

The banquet at 6 o'clock last evening was one of the most enjoyable affairs ever given at the Temple and the members of the fraternity were royally entertained. Grand Master William Geake officiated as toastmaster and Senator Gilbert, of Angola, delivered the address to the class. The response by Samuel M. Foster on behalf of the candidates was in a vein at once happy and brilliant. The toast "Our Mother" was splendidly handled by Amos P. Beatty, of Decatur.

The meeting of the Commercial club to be held on Thursday evening will be an important one, and matters of vital interest will come up. It is regarded as probable a representative of the Withington company will be present in connection with the matter of locating the new factory in Fort Wayne; the county fair committee will present a report, and a number of other business propositions will have a hearing.

THE BILL WILL PASS

Test Vote on Porto Rican Measure in the House Presages That It Will Go Through.

THE VOTE, 158 TO 142, A SURPRISE.

Washington, April 11.—The passage of the Porto Rican bill this afternoon at 5 o'clock, when a vote is to be taken, was presaged clearly a short time after the house assembled today by the adoption of a rule fixing 5 o'clock for the final vote.

The rule on the vote was adopted by the following vote: Ayes, 158; nays, 142; present and not voting, 11.

Unless there is concealed a purpose of some republicans to oppose the measure on the final vote, the passage of the bill is assured. The republican leaders are jubilant.

The republicans who voted against the rule were: Crumpacker, of Indiana; Heatwole, of Minnesota; Lane, of Iowa; Littlefield, of Maine; Lorimore, of Illinois; McCall, of Massachusetts; H. C. Smith, of Michigan; Warner, of Illinois. The only democrat voting for the rule was Sibley, of Pennsylvania.

ATTRACTED GREAT CROWDS.

Washington, April 11.—The closing struggle over the Porto Rican tariff bill, set for today in the house, attracted great crowds to the galleries and all the preparations indicated a field day replete with exciting incidents.

Excitement was at a high pitch when the speaker's gavel fell at noon.

As soon as the reading of the journal was concluded Mr. Dalzell, of Pennsylvania, one of the leaders of the majority and a member of the committee on rules, presented the special order under which the house was to operate, as follows:

"Resolved, That immediately upon the adoption of this resolution the committee of the whole house in state of the union shall be discharged from the consideration of H. R. 9945 (the Porto Rico bill) and the senate amendment thereto; that the same shall be considered in the house until 5 p. m., Wednesday, April 11, 1900, when, without delay or other motion, a vote shall be taken on the motion to concur in the said senate amendments en gross. And all members shall have leave to print on the subject of said bill and amendments for ten days from the adoption of this rule."

DEBATED THE RULE.

Upon the conclusion of the reading of the rule, upon demand of Mr. Dalzell the previous question on its adoption was ordered. This gave twenty minutes for debate on each side under the rules. Mr. Dalzell said he would discuss the rule briefly. On February 28 the house sent to the senate the Porto Rico tariff bill. The amendments attached by the senate furnished a civil government for the island. It was the opinion of the majority, he said, that those amendments should be concurred in.

There had been enough discussion of the subject, he said. What they wanted was not debate, but action.

Mr. Richardson, the minority leader, called attention to the fact that the rule would permit the house to vote only upon a single proposition.

If it had been possible for the senate to add to the iniquity of the original bill levying 15 per cent. on the Dingley duties on goods going into Porto Rico, he said, it had done so in the so-called civil government amendment. Under the guise of a civil government, he said, the senate had imposed an imperialistic government upon the people of the island.

CITES REPUBLICANS.

He asserted that it was not the intention of the republicans of the house in the first instance to enact any such measure. He quoted President McKinley, Secretary Root, ex-President Harrison, ex-Speaker Reed and other republicans of national reputation in favor of free trade with the island, and drew a salvo of applause from his democratic colleagues by characterizing the president in the language of ex-Speaker Reed as the "emperor of expediency."

Proceeding, he expressed his regret that the secretary of war had not seen fit to furnish the opinion of Judge Charles A. Magoon, the attorney of the insular bureau, to the effect that the constitution extended expropriio vigore to our new possessions, upon which, he said, the original recommendations of the president and the secretary of war were based.

He read some extracts from this alleged suppressed opinion which had been printed in a New York newspaper. The reading was frequently punctuated with applause. Why, Mr. Richardson asked, had the president, the secretary of war and the republican party changed front upon this whole question? For reply he read the statement of Professor Schurman, of the Philippine commission, that the "trusts had gone down to Washington and had grasped the republican party by the throat."

He also recalled the statement printed a short time ago in a local newspaper that a republican member of the house had said that in return for the passage of the bill a large contribution was to be made to the republican campaign fund.

Mr. Richardson created something of a sensation by giving the name of the newspaper man who had written the interview, saying he was a reputable correspondent, worthy of all credence.

Mr. DeArmond, of Missouri, said the rule was evidence that those who had decided to suppress the intellect, chain the will and stifle the conscience realized that they must do their work quickly. He commended those who had the manhood to stand out for the right and warned the majority that the republicans would have the country to reckon with.

BABCOCK DENIES CHARGES.

Washington, April 11.—Mr. Babcock, of Wisconsin, chairman of the republican congressional campaign committee, to whom Mr. Dalzell yielded a minute and a half, indignantly resented the charge of Mr. Richardson that the republican campaign committee had received a money consideration for the Porto Rico tariff bill. As a member of that committee he desired to denounce it as absolutely without foundation and he challenged any one to name the republican who was responsible for such a charge.

Jumping to his feet Mr. Pierce, of Tennessee, tried to interrupt Mr. Babcock, but the latter waved him aside.

"He withdraws his challenge," shouted a voice on the democratic side, amid a howl of derision.

Mr. Babcock paid no attention to it. The shoe was on the other foot, he continued. The tobacco trust and the sugar trust, he said, had started the free trade agitation. This statement produced more derisive cries from the opposition, which, however, were drowned in republican cheers.

GROSVENOR STIRRED UP.

Mr. Grosvenor, of Ohio, followed with a speech that kept his side in almost continuous applause. It was a glorious thing, he said, to witness the anxiety of the democratic party and the mugwump press lest the republican party should destroy itself. He had witnessed it before, but he had never seen it so anxious as now to avert from the republican party the odium and the curse of an outraged public sentiment. (Republican cheers.)

He referred sarcastically to an editorial this moring in "one of these independent papers which would probably support Bryan" appealing to the republicans for God's sake not to do themselves injury. It gave the "brand of hypocrisy" to the whole "outfit" he said. Mr. Grosvenor said he honored the democratic party for making opposition to this bill, the test of democracy and those democrats who had previously voted for the tariff bill who now placed allegiance to party above consistency.

Allegiance to this bill was not, he said, the shibboleth of republicanism. He hurled back in Mr. Richardson's teeth the charge of bribery. Did the gentleman from Tennessee, he asked, think he could be a hypocrite everywhere? He himself did not believe it. If he believed [illegible]

Most of the session was taken up with the consideration of the biennial reports of the officers. This is the first meeting since the grand lodge adopted the classified assessment plan, and there was much satisfaction over the showing made as to membership.

Grand Master Neal said, in his report, that he is satisfied that had the grand lodge failed, at the last meeting, two years ago in Indianapolis, to adopt the plan, that there would have been a loss of more than one-half the membership. During the first six months of 1895 there was a loss of 810 members, owing to the dissatisfaction of the older members, who, under the new plan, were called on to pay a larger assessment. This brought the total in the state down to 6,004. On January 1 last there were 7,579. The increase of young men, between eighteen and twenty-four, for whom the assessment now is only 60 cents on $1,000, has been 150 per cent. There are sixteen more lodges than there were two years ago. The finance committee's report shows the payment of $310,000 in the two years for death benefits, making a total since the first lodge in Indiana was instituted in Terre Haute, in 1872, of nearly $2,000,000. The year 1899 also was a banner year in the order at large, there being 50,330 admissions in the United States.

The average age of membership is forty-two years, but the average of admissions during the last year was twenty-nine, which is the lowest on record. The average age of deaths was fifty years. During the two years 145 holders of the maximum certificate of $2,000 had taken out the $1,000 certificate instead, and eleven holders of the $1,000 certificates increased to $2,000.

THE KENTUCKY CASES.

Frankfort, Ky., April 11.—The attorneys in the contest-cases for the minor state offices have prepared an agreement, which will be signed today. Under its terms an agreed upon case is to be made up and advanced through the state courts. The intention is to hurry the case through in time for it to be taken up by the United States supreme court with the case involving the title to the offices of governor and lieutenant governor. The hearing of the Coombs habeas corpus case was continued before Judge Cantrill until tomorrow.

BOARD HAS ORGANIZED.

Dr. E. A. Crull has taken his seat as a member of the Fort Wayne board of pension examining surgeons, and the board is now organized as follows: Dr. G. B. M. Bower, president; Dr. J. Hetrick, secretary; Dr. E. A. Crull, treasurer.

NAME R. B. HANNA

NOMINATED FOR CONGRESS BY REPUBLICANS.

CONVENTION HELD IN AUBURN

THE NOMINATION WAS MADE BY ACCLAMATION.

ADMINISTRATION ENDORSED

FAVORS THE PORTO RICAN TARIFF BILL.

[Special to The Sentinel.]

Auburn, Ind., April 11.—Robert B. Hanna, of Fort Wayne, was nominated for congress by the Twelfth district republicans in convention here this afternoon.

The nomination was made by acclamation, there being no other candidate before the convention.

The convention met a little after 1 o'clock and proceeded to business. After organization, business was gotten promptly under way. Resolutions were adopted endorsing the administration of President McKinley, attributing return of prosperity to the administration, approving the new currency law and the administration's policy as to the new island acquisitions.

The resolutions were adopted with considerable enthusiasm.

Mr. Hanna was placed in nomination by Judge W. J. Vesey, of the Allen superior court, who paid the candidate a lofty tribute of praise. There were numerous seconds to the nomination of Mr. Hanna, after which he was made the party's congressional nominee by acclamation, the affair being accomplished with a whoop.

Mr. Hanna made a speech of acceptance in which he said the good times were due to the return of the republican party to power. He declared himself in favor of a protective tariff and the Porto Rican tariff as well. He said he believed in liberal pensions for all veterans and if elected would work for free rural mail delivery throughout the Twelfth district. He declared he did not believe the constitution followed the flag in the case of the republic's new island possessions. He wanted to see the republicans remain in power, he said, because it was best for the country.

The venerable Judge John Morris of Fort Wayne, made a speech, eulogizing the nominee, saying he was third of a generation of a family which had done much for Fort Wayne and northern Indiana.

Among others who spoke were Hon. John L. Griffiths, of Indianapolis, republican candidate for the gubernatorial nomination.

Albert C. Robbins, of Auburn, and Charles Nichols, of Lima, Lagrange county, were chosen delegates to the republican national convention, with Harry K. Scott, of Angola, and Dr. J. S. Griswell, of Columbia City, as alternates. Harry I. Park, of Kendallville, was chosen presidential elector for the Twelfth district.

FIVE PERSONS DEATHLY SICK

SOME FOOD PRODUCT WAS CONTAMINATED.

Family of Rev. C. C. Cissel Has an Unpleasant Experience—Dr. Drayer Investigating.

Five members of the family of Rev. C. C. Cissel were taken seriously ill last night, due to poisonous contamination of some food product. Mrs. Cissel was taken ill shortly after supper. She suffered severe pain and vomited violently. Her aged parents, Mr. and Mrs. Keisling, who are members of the household, were similarly afflicted a little later and Dr. Hetrick was called. The physician administered antidotes and soon relieved the sufferers, but about 11 o'clock, while Dr. Hetrick was yet at the home, Eldrew Cissel, the younger son of the family, grew ill. The patients were at no time regarded as dangerous by Dr. Hetrick, but he says the symptoms clearly indicated poisoning, perhaps from some food product, and it was believed the milk used at supper had been contaminated.

This morning, however, another son, Earl Cissel, became ill after breakfast, and as he had drank none of the milk Dr. Hetrick is inclined to think the trouble may have been in the coffee, though the family has been using of the coffee since Saturday and it has been kept in a tightly closed tin vessel. Samples of both the coffee and the milk are now in the hands of Dr. Drayer, who will make analysis. All the patients are now improving and it is believed there is no danger.

Dr. Hetrick states that the symptoms were those of arsenical poisoning and that a portion of a ox of rat poison, which had been used in exterminating the rodents, remained in the house. It is possible some of this became spilled and in this manner came in contact with some of the food eaten by the family.

INSTRUCTED FOR BRYAN.

Helena, Mont., April 11.—The populist state convention here has selected ten delegates and alternates to the national convention at Sioux Falls. The delegates were instructed for Bryan for president. The convention to nominate a state ticket probably will be held in June.

HIGHER DEGREES ARE GIVEN

SCOTTISH RITE MASONS IN SESSION

Princes of Jerusalem are Closing the Work of the Spring Convocation—The Class.

Darius council, Princes of Jerusalem, convened at 2 o'clock this afternoon at Masonic Temple and the conferring of the fifteenth and sixteenth degrees by this body, together with the banquet at 6 o'clock this evening, will conclude the work of the spring convocation of Scottish rite Masons of the Valley of Fort Wayne. The class receiving the degrees this evening is of about the same size as that of yesterday, and the attendance includes many prominent Masons from this section of the state.

At the banquet this evening H. W. Mordhurst will preside as toastmaster, and the following program of responses will be given:

Address to the Class—Hugh Glenn Keegan, 16 degree, Fort Wayne.

Valedictory—Response by a class member, 16 degree.

The Sprig of Acacia—Thomas R. Marshal, 33 degree, Columbia City.

Masonic Charity—Response by Budd Van Sweringen, 32 degree, Fort Wayne.

This morning the visiting members of the Scottish rite fraternity joined their Fort Wayne brethren in attending the funeral service of William Knight, who was a member of the lodge in this city.

TUESDAY'S CLASS.

A class of twenty-five received the degrees from four to fourteen at the session on Tuesday, and the gentlemen composing the class were:

James E. Allen, Huntington.
Samuel Bernhower, Churubusco.
Harry F. Briss, Fort Wayne.
Hary C. Coover, Fort Wayne.
William M. Clutter, Huntertown.
Oliver P. Coffin, Poneto.
Louis G. Ellingham, Decatur.
Samuel M. Foster, Fort Wayne.
Charles F. Field, Geneva.
James H. Grisamer, Churubusco.
Daniel E. Greiner, Portland.
Lewis C. Helm, Decatur.
Lewis C. Hunter, Fort Wayne.
Joseph W. Mitten, Fort Wayne.
B. Paul Mossman, Fort Wayne.
T. Frank Mulligan, Fort Wayne.
Ralph L. Magee, Fort Wayne.
Harry L. Moltz, Decatur.
Jasper N. Parrish, Decatur.
John A. Phipps, Fort Wayne.
Thomas N. Roach, Fort Wayne.
Walter R. Seavey, Fort Wayne.
John Stonebarner, Decatur.
Darwin A. Sweet, Fort Wayne.
Frank A. Welch, Geneva.

The banquet at 6 o'clock last evening was one of the most enjoyable affairs ever given at the Temple and the members of the fraternity were royally entertained. Grand Master William Geake officiated as toastmaster and Senator Gilbert, of Angola, delivered the address to the class. The response by Samuel M. Foster on behalf of the candidates was in a vein at once happy and brilliant. The toast "Our Mother" was splendidly handled by Amos P. Beatty, of Decatur.

The meeting of the Commercial club to be held on Thursday evening will be an important one, and matters of vital interest will come up. It is regarded as probable a representative of the Withington company will be present in connection with the matter of locating the new factory in Fort Wayne; the county fair committee will present a report, and a number of other business propositions will have a hearing.

THE BILL WILL PASS

Test Vote on Porto Rican Measure in the House Presages That It Will Go Through.

THE VOTE, 158 TO 142, A SURPRISE.

Washington, April 11.—The passage of the Porto Rican bill this afternoon at 5 o'clock, when a vote is to be taken, was presaged clearly a short time after the house assembled today by the adoption of a rule fixing 5 o'clock for the final vote.

The rule on the vote was adopted by the following vote: Ayes, 158; nays, 142; present and not voting, 11.

Unless there is concealed a purpose of some republicans to oppose the measure on the final vote, the passage of the bill is assured. The republican leaders are jubilant.

The republicans who voted against the rule were: Crumpacker, of Indiana; Heatwole, of Minnesota; Lane, of Iowa; Littlefield, of Maine; Lorimore, of Illinois; McCall, of Massachusetts; H. C. Smith, of Michigan; Warner, of Illinois. The only democrat voting for the rule was Sibley, of Pennsylvania.

ATTRACTED GREAT CROWDS.

Washington, April 11.—The closing struggle over the Porto Rican tariff bill, set for today in the house, attracted great crowds to the galleries and all the preparations indicated a field day replete with exciting incidents.

Excitement was at a high pitch when the speaker's gavel fell at noon.

As soon as the reading of the journal was concluded Mr. Dalzell, of Pennsylvania, one of the leaders of the majority and a member of the committee on rules, presented the special order under which the house was to operate, as follows:

"Resolved, That immediately upon the adoption of this resolution the committee of the whole house in state of the union shall be discharged from the consideration of H. R. B. 245 (the Porto Rico bill) and the senate amendment thereto; that the same shall be considered in the house until 5 p. m., Wednesday, April 11, 1900, when, without delay or other motion, a vote shall be taken on the motion to concur in the said senate amendments en gross. And all members shall have leave to print on the subject of said bill and amendments for ten days from the adoption of this rule."

DEBATED THE RULE.

Upon the conclusion of the reading of the rule, upon demand of Mr. Dalzell the previous question on its adoption was ordered. This gave twenty minutes for debate on each side under the rules. Mr. Dalzell said he would discuss the rule briefly. On February 28 the house sent to the senate the Porto Rico tariff bill. The amendments attached by the senate furnished a civil government for the island. It was the opinion of the majority, he said, that those amendments should be concurred in.

There had been enough discussion of the subject, he said. What they wanted was not debate, but action.

Mr. Richardson, the minority leader, called attention to the fact that the rule would permit the house to vote only upon a single proposition.

If it had been possible for the senate to add to the iniquity of the original bill levying 15 per cent. on the Dingley duties on goods going into Porto Rico, he said, it had done so in the so-called civil government amendment. Under the guise of a civil government, he said, the senate had imposed an imperialistic government upon the people of the island.

CITES REPUBLICANS.

He asserted that it was not the intention of the republicans of the house in the first instance to enact any such measure. He quoted President McKinley, Secretary Root, ex-President Harrison, ex-Speaker Reed and other republicans of national reputation in favor of free trade with the island, and drew a salvo of applause from his democratic colleagues by characterizing the president in the language of ex-Speaker Reed as the "emperor of expediency."

Proceeding, he expressed his regret that the secretary of war had not seen fit to furnish the opinion of Judge Charles A. Magoon, the attorney of the insular bureau, to the effect that the constitution extended ex proprio vigore to our new possessions, upon which, he said, the original recommendations of the president and the secretary of war were based.

He read some extracts from this alleged suppressed opinion which had been printed in a New York newspaper. The reading was frequently punctuated with applause. Why, Mr. Richardson asked, had the president, the secretary of war and the republican party changed front upon this whole question? For reply he read the statement of Professor Schurman, of the Philippine commission, that the "trusts had gone down to Washington and had grasped the republican party by the throat."

He also recalled the statement printed a short time ago in a local newspaper that a republican member of the house had said that in return for the passage of the bill a large contribution was to be made to the republican campaign fund.

Mr. Richardson created something of a sensation by giving the name of the newspaper man who had written the interview, saying he was a reputable correspondent, worthy of all credence.

Mr. DeArmond, of Missouri, said the rule was evidence that those who had decided to suppress the intellect, chain the will and stifle the conscience realized that they must do their work quickly. He commended those who had the manhood to stand out for the right and warned the majority that the republicans would have the country to reckon with.

BABCOCK DENIES CHARGES.

Washington, April 11.—Mr. Babcock, of Wisconsin, chairman of the republican congressional campaign committee, to whom Mr. Dalzell yielded a minute and a half, indignantly resented the charge of Mr. Richardson that the republican campaign committee had received a money consideration for the Porto Rico tariff bill. As a member of that committee he desired to denounce it as absolutely without foundation and he challenged any one to name the republican who was responsible for such a charge.

Jumping to his feet Mr. Pierce, of Tennessee, tried to interrupt Mr. Babcock, but the latter waved him aside.

"He withdraws his challenge," shouted a voice on the democratic side, amid a howl of derision.

Mr. Babcock paid no attention to it. The shoe was on the other foot, he continued. The tobacco trust and the sugar trust, he said, had started the free trade agitation. This statement produced more derisive cries from the opposition, which, however, were drowned in republican cheers.

GROSVENOR STIRRED UP.

Mr. Grosvenor, of Ohio, followed with a speech that kept his side in almost continuous applause. It was a glorious thing, he said, to witness the anxiety of the democratic party and the mugwump press lest the republican party should destroy itself. He had witnessed it before, but he had never seen it so anxious as now to avert from the republican party the odium and the curse of an outraged public sentiment. (Republican cheers.)

He referred sarcastically to an editorial this morning in "one of these independent papers which would probably support Bryan" appealing to the republicans for God's sake not to do themselves injury. It gave the "brand of hypocrisy" to the whole "outfit" he said. Mr. Grosvenor said he honored the democratic party for making opposition to this bill, the test of democracy and those democrats who had previously voted for the tariff bill who now placed allegiance to party above consistency.

Allegiance to this bill was not, he said, the shibboleth of republicanism. He hurled back in Mr. Richardson's teeth the charge of bribery. Did the gentleman from Tennessee, he asked, think he could be a hypocrite everywhere? He himself did not believe it. If he believed any repub-

MUNICIPAL NEWS.

DELAY IN BEGINNING SOUTH WAYNE SEWER.

THE WEATHER INTERFERES

BOARD OF WORKS DISPOSES OF MINOR BUSINESS.

A NEW FIREMAN IS CHOSEN

ALEXANDER JOHNSON AND T. E. ELLISON HONORED.

There is some apparent delay in beginning work on the South Wayne sewer. Mr. J. T. Adams, the contractor, has filed his bond, but for several days nothing has been heard from him nor is there an intimation as to when he may begin work. The board of works is very desirous that the sewer shall be completed before next winter and the members are impatient at the delay in getting started.

Thomas J. Peter was compelled to have his men quit excavation on the intercepting sewer, although the trench machine is in operation and will be working every day regardless of weather. The shaft at the corner of Harmer and Erie streets is down now to a depth of thirty feet and the workmen find a big layer of sand. Mr. Peter believes that for some distance he will have a sand roof over the sewer. This means that it will be necessary to keep the brick work up with the excavation. The contractor is still positive that the big sewer will be finished within six months, although he has ten months in which to complete the work.

BOARD OPENS BIDS.

The board of works last evening opened bids for the repainting and frescoing of the city hall. There were four bids, as follows: H. A. Kirchefer, $749; William Yergens, jr., $787; Louis Brunner, $801; H. C. Lehnert, $694. The board took the bids under advisement until next Monday, when the contract will be awarded.

Engineer Randall's plans for a sewer in the alley west of St. Marys, from Polk street to the Lake Shore railway, were approved and the resolution passed. Action on the proposed sewer along the east side of Industrial Park addition was postponed for one week. Several petitions for permission to lay sidewalks under private contract were granted. The council committee on parks submitted a report favoring the mounting in Lawton park of the captured Filipino gun sent to the city by Mrs Henry W. Lawton in deference to the wishes of her husband, the late General Lawton. The board deferred action, pending a conference with the committee appointed by the Spanish-American War Veterans' association regarding the matter of mounting the piece.

A NEW FIREMAN.

The board of safety at its meeting last evening appointed John F. Hilgeman a fireman, to succeed John Baker, who had been appointed captain of company No. 7 to succeed John Zent, resigned. He will be assigned to company No. 7.

MUNICIPAL NOTES.

Mayor Scherer has appointed Alexander Johnson and Hon. T. E. Ellison delegates to represent Fort Wayne at the International Association of Charities and Corrections, to be held at Topeka, Kas., May 18 to 21.

City Clerk Monning has issued a neat card containing the names of all the city officers and the new committees appointed by Mayor Scherer.

BRYAN SPEAKS IN ARIZONA.

Phoenix, Ari., April 13.—William J. Bryan arrived yesterday and was escorted by two bands through the streets to his hotel, where he was entertained by the democratic clubs. A reception followed, during which he received a message from a dying woman asking him to call on her, as she desired to meet the champion of her faith. He readily responded. Returning to the hotel, Mr. Bryan addressed the school children, the schools being closed for the occasion. For an hour and a half he addressed 5,000 people on the public plaza on the subjects of silver, trusts and imperialism.

BOILER LETS GO, KILLING TWO.

Big Rapids, Mich., April 13.—The boiler in John E. Reiter's sawmill, at the hamlet of Sylvester, exploded last night, killing David Zimmerman, aged seventy, and James Moffitt, aged twenty-five. Oscar Zimmerman, a spectator, was severely injured and is reported dying. The mill was completely demolished. The cause of the explosion is unknown.

DEATHS AND FUNERALS.

HOPPE.

Henry Hoppe, a pioneer settler of Allen county, died Thursday afternoon at his home in Marion township, where he had been for many years a prominent farmer. Mr. Hoppe was seventy-one years of age and death was due to Bright's disease.

The funeral will occur Sunday afternoon from the Lutheran church, Rev. Hugo officiating.

MEYER.

Harry Meyer, the infant son of Mr. and Mrs. Morris Meyer, of 178 West Jefferson street, died Thursday night from obstruction of the bowels. The little one was one year old.

The funeral services were held this afternoon at 3 o'clock from the residence.

BOWSER.

The infant daughter of Mr. and Mrs. Delmore Bowser, of 99 Thomas street, died early Wednesday morning from gastro-intestinal hemorrhage. Funeral services were held today and the interment was at Huntertown.

CONTRACT FOR HOLLAND BOATS

Washington, April 13.—The navy department has signed a contract with the Holland Submarine Torpedo Boat company for the addition of some of their boats to the navy. By the terms of the contract the government pays $150,000 for the Holland. It also agrees to pay $175,000 each for any boats of the Holland type it may purchase hereafter, provided that the boats shall be similar in dimensions to the new Holland, which will be larger than the old one. The company undertakes to protect the government against any claims for infringement of patents, and also to sell to the government at a price to be fixed by a board of appraisers, any of the patents used in the construction of the boat, which it may be desirable for the government to possess. A further obligation upon the company is to furnish experts for a reasonable time train a naval crew in the management of the Holland. The company also bonds itself in the sum of $90,000 to complete the Plunger.

SAYS IT IS UNTRUE.

Philadelphia, April 13.—A vice president of the Pennsylvania Railroad company today characterized as untrue a report from Baltimore that the Pennsylvania Railroad company was in a deal with the Baltimore and Ohio Railroad company to acquire the Philadelphia and Reading Railway company and Central Railroad company of New Jersey. He further stated that the question of the Baltimore and Ohio railroad running its trains over the Pennsylvania railroad to Jersey City had not been broached or discussed.

THE GOEBEL CASE.

Frankfort, Ky., April 13.—The attorney for "Tallow Dick" Combs, charged with complicity in the Goebel murder, began to argue the demurrer he filed to the response of the commonwealth to the writ of habeas corpus before Judge Cantrill today, but the court ruled that a demurrer was not the proper procedure and gave the attorney until tomorrow to file an answer.

STATUS OF SOUTHERN RAILWAY STRIKE.

Officials Say They are Not Much Crippled and Strike Leaders Say They Are.

Chattanooga, Tenn., April 13.—Statements of the Southern Railway officials and the operators differ so widely it is hard to determine the real extent of the strike now in progress of that system.

The places of the strikers in this city have been filled from the clerical forces and so far passenger trains have not been seriously interfered with. Freight traffic is somewhat delayed. The railroad officials say less than 10 per cent of the men on the Knoxville division are out. Trains are running today on the Meridian, Mississippi division and on the Memphis division. Reports to A. B. Stillwell, representing the operators, say nearly all the men are out and that they are standing firm.

TRAINS OFF SCHEDULE.

Atlanta, Ga., April 13.—The trains of the Southern arrived here considerably off schedule today, ranging from one to five hours late.

Official information from the office of Assistant General Superintendent Thompson at noon was that all trains were moving on time; that all freight was being handled on regular schedules and there was no congestion of traffic.

Officials said the ten places which were vacated by telegraphers yesterday had been filled in Atlanta as in other places in this division. President Powell, of the striking organization, said today:

"We are highly elated over the success of the strike. The members of the organization went out to a man. My information shows that the traffic on the Southern is almost totally demoralized. My reports show that the Alabama Great Southern is unable to run freight trains and only the principal passenger trains are moving."

FAMINE RELIEF.

AN APPEAL TO HUMANITY FOR THE STARVING MILLIONS IN INDIA.

In all the world's history no more pitiful spectacle has been presented to human gaze than that of the millions of people in India who are today facing the horrors of starvation by reason of the famine. We in a land of plenty can not appreciate the sufferings of this distressed people, but the language of want is a universal tongue, and the entire world is hearing the cry.

The cause is a righteous and a worthy one, and it is gratifying to know that Fort Wayne has made a start toward doing its share for the relief of these suffering people. At the home of Mrs. John A. Thieme Monday afternoon the Ladies' Auxiliary of the City Y. M. C. A. held a meeting and voted $100 toward this laudable purpose.

To further the work The Sentinel will receive and acknowledge contributions for this cause, and will forward them to the international committee of the Y. M. C. A., at New York, which has a man in the field who will see that the fund is properly applied to the relief of the famine sufferers. Contributions may be forwarded to The Sentinel, and acknowledgement will be made in this column. Let there be a generous response. The subscriptions to date are as follows:

ALL IS READY BUT THE SHOW

PARIS EXPOSITION IS TO BE OPENED TOMORROW.

Buildings and Grounds in a Very Incomplete State and Exhibits Not Arranged.

Paris, April 13.—The exposition authorities are making a strenuous effort to prepare the show for the inauguration tomorrow, but an examination of the grounds and buildings today shows the task to be impossible. The buildings are filled with debris and the exhibits are only partially installed.

The Salle des Fetes, in which the inaugural ceremonies are planned to occur tomorrow, has an army of men clearing the floor space and arranging the seats.

The work will continue all night and close to the hour when the invited guests arrive. The hall is a magnificent structure, beautifully decorated, and is a great tribute to French architecture and decorative art. In order to facilitate the labor of clearing the grounds thousands of soldiers have been utilized.

These ceremonies are timed to begin at 2 o'clock, when M. Millerand, the minister of commerce, will make the inaugural address, to which President Loubet will reply. The president will then walk through a portion of the grounds, and afterwards embarking in a river craft, he will go down the River Seine to the new Alexander III. bridge, which he will formally declare open.

The exposition grounds will be closed for the remainder of the day, the formal opening to the public taking place on Sunday.

The Man Who Knows Everything

About the weather, says that we will have fine weather for Easter. Won't that make the glad smiles play around the young ladies' faces that have spent $5 more than they could afford for an Easter hat! But young men! Some of you have not yet bought your new spring suit, top coat, and Easter tie, nor have you bought your new hat to offset the one that your lady friend will be so proud of. If she is proud of her own hat—let her be proud of yours also. We have fitted out your neighbor, we want to see you tomorrow. Of course, "it is not fine feathers that make fine birds," but it helps them wonderfully to be appreciated.

Have you had the Grippe? Have you been subject to colds and coughs lately? Are you all run down? Is your system debilitated? Do you feel weak? Do you take cold easily? Do you sleep poorly? Is your appetite fickle?

Then you had better look after yourself. The grippe leaves people in a frightful condition. Another terrible cold, and Pneumonia has hold of you, and that too at a time when it is apt to prove fatal.

Do not neglect your health, if you have had the grippe, or have suffered from colds this winter. Fortify your system, get strong, be rugged so you can defy the diseases that are lurking in the atmosphere.

Come and see us and let us tell you about Vinol. It is a great tonic restorative and body builder that makes rich, red blood, sound flesh and hard muscle. Vinol acts favorably on the stomach. We have proved that those who take it sleep and eat as they should. There is nothing that we can recommend so strongly as Vinol, especially to be taken at this time of the year. Used by people who have suffered from Grippe and other debilitating diseases.

BECAUSE WE KNOW VINOL SO WELL, AND BECAUSE WE KNOW SO SURELY WHAT IT WILL DO, AND HOW IT WILL ACCOMPLISH THE GOOD IT DOES IN A SCIENTIFIC WAY, WE UNRESERVEDLY INDORSE AND RECOMMEND IT. AND IN EVERY INSTANCE GUARANTEE TO REFUND TO ANYONE WHAT THEY PAID US FOR VINOL, IF THEY DO NOT FIND IT ENTIRELY SATISFACTORY.

MADE A DISCOVERY

ALEXANDER JOHNSON'S EXPERIMENTS SUCCESSFUL.

CAN NOW APPLY LIQUID AIR TO THE PURPOSE OF ORDINARY REFRIGERATION

SECRET IS ENTIRELY HIS OWN

BRILLIANT RESULT OF THE NEW YORK TRIP.

Alexander Johnson and C. R. Lane, of this city, who have been spending the past week in New York city investigating the liquid air proposition as demonstrated in the laboratory of Professor Tripler, returned to this city last evening. And Mr. Johnson brought with him knowledge of a principle discovered by himself that will doubtless influence importance and radical changes in present systems of commercial refrigeration.

The discovery was made Monday afternoon by Mr. Johnson, and this morning he placed the matter in the hands of Chapin & Denny, the patent attorneys, who have taken the initial steps toward protecting the fruits of it.

The discovery is a simple, practical method of utiliging the liquid air in the work of ordinary household refrigeration- the process by which the product can be transformed so as to produce any desired temperature. There is nothing in Mr. Johnson's discovery which in any way encroaches upon any of the methods of the Tripler company. It does not concern the production of liquid air, but the application of it to this branch of commercial utility, and when it is remembered that Mr. Johnson is the first to discover a practical method of doing this, the importance of the discovery can not be well over-estimated.

"We visited the Tripler laboratory," said Mr. Johnson to a reporter for The Sentinel this morning, "and were shown many of the wonderful things that can be performed by the new liquid air, and Professor Tripler took great pleasure in explaining the subject to us. There is a world of revelation in store for the public regarding this new liquid, and it can not fail to be of the greatest importance as soon as the methods of applying and controlling it are perfected. I saw a number of remarkable experiments which to some extent demonstrated its properties, and Saturday forenoon Professor Tripler and myself were engaged in experimenting. Little came of it, and as Professor Tripler's attention was needed elsewhere Monday morning he kindly gave me permission to continue the work of experimenting. I did so, and while my apparatus, hurriedly procured and constructed, was of the crudest nature, its success was so complete that I have not the slightest doubt but that I have hit upon a plan for controlling liquid air for commercial purposes that is cheap, convenient and practical.

"Understand me," continued Mr. Johnson, "the discovery does not in any way invade the sphere of Professor Tripler; it simply takes up the proposition where he paused, and when I am able to next demonstrate the discovery with perfected apparatus I expect still more satisfactory results. It will produce and hold a refrigerating surface at any desired temperature above 312 degrees below zero, which is the normal temperature of the liquid air."

"Will you bring the liquid air to Fort Wayne?" asked the reporter.

"Yes," replied Mr. Johnson. "We expect to give a demonstration in this city within a short time, and when that is done Fort Wayne will have an opportunity of seeing not only the marvelous product of Professor Tripler's genius, but also the new method of applying it to the practical commercial purposes. And that is something the world has not yet seen. We have been promised fifteen to twenty gallons of the liquid air for experimental purposes in this city, and I shall at once place an order with a firm in this city for the construction of the apparatus for transforming, controlling and applying it."

"Do you regard a liquid air plant as practicable for Fort Wayne?" was asked.

"Certainly," said Mr. Johnson. "We found that the cost of such a plant will be much less than had been anticipated, and I see no reason why Fort Wayne can not have such an establishment. The Tripler company, however, retains some stock in all the factories, and it is probable the first plant in Indiana will be located in Indianapolis."

Mr. Johnson is very enthusiastic both over liquid air and over his own discovery of a method of controlling and applying it, and nothing could please his Fort Wayne friends more highly than to see a realization of the present belief that Mr. Johnson has, in mining parlance, "struck it rich."

COMMITTEES WILL START.

Four thousand dollars will be needed to defray the expenses of the national encampment of the Union Veteran legion, which will be held in this city next September, and within a few days the finance committee will begin the work of soliciting to raise this amount. The gathering is national in its scope and perhaps 20,000 visitors for the week is not too high an estimate on the crowd which will come to Fort Wayne. Halls, music, banquet and other features must be provided, and the veterans hope for prompt response to the committee's efforts. The work of canvassing for room and board accommodations will also begin shortly, as it will be impossible for the hotels to accommodate all who come during the encampment.

LATEST BASE BALL GOSSIP

OTTO KRUEGER HAS ARRIVED TO PLAY SECOND.

Chick Stahl Did Some Good Hitting Tuesday The Inter-State League News.

The St. Louis Globe-Democrat Tuesday stated that Otto Kruger, the little fellow who played for Grand Rapids-Springfield-Columbus last season, had been released to the Fort Wayne team. Kruger is not very large, but he is "some pumpkins" as a ball player and there will be many in the Inter-State league this season who cannot hold a candle to him.

NOTES.

Ed Mahar, of the Shamrocks, has been asked to send his terms to Manager Hill, of the Kokomo team.

In the practice game at Greensboro, N. C., yesterday, "Chick" Stahl made three hits, a single, three-bagger and home run.

Manager Jack Glascock is expected tonight or in the morning. Kleinow, the new catcher, will arrive this evening.

The new infielder, Hoffman, has been doing some fast work in practice and the "fans" believe that if he can line out the ball with the bat he will stick with the team.

The cold, cheerless weather of the dry has given the ball players the blues and interferes with practice to such an extent that many of them will not be in condition for the first game.

For the first time in the history of the Inter-State league it appears that Manager Strobel has signed a second division team. There are four clubs in the league that should beat the Mud Hens out in the race.

Guese was in the box for the Indianapolis team at St. Louis Sunday and he was "tapioca pudding" for the T-bos. Runs never ceased trickling over the plate while Theodore was hurling the horse-hide.

Grand Rapids is again knocking at the Interstate door. The Wolverine town will have no professional team this season unless it can break into a league composed of such towns as Niles, Sturgis, Coldwater, Tecumseh and Monroe.

The Shamrocks will play the first game of the season with the Fort Wayne professional team next Saturday. The full Shamrock team will be in the field except that for a few innings one of the league twirlers will be in the box against his comrades.

President Power, of the Inter-State league, has notified Manager Finn, of Youngstown, that the Carney case, in which Fort Wayne holds a claim of $51.40 against the twirler, will be reopened. In the meantime he will be permitted to play with Youngstown.

The Fort Wayne management has seven twirlers under contract and as only five will be carried during the season two of these will be released. Of course, it is probable that Brashear may be tried in some other position than the box and this may mean a reduction of one twirler.

Manager Finn, of Youngstown, says he has the strongest team in the Interstate league. That is a perfectly proper thing for any manager to say, but it still remains to be proven whether he has or not. There is one thing mighty certain and that is that the Youngstowns have always been Fort Wayne's Jonah and invariably played a stiffer game with Fort Wayne than they did with any other team in the circuit.

KILLED HIMSELF.

GENE GORDON SWALLOWS TWO OUNCES OF LAUDANUM.

TOOK THE DRUG LAST NIGHT AND DIED TWO HOURS LATER AT HIS HOME.

LIVED MANY YEARS HERE AND WAS EMPLOYED IN THE SENTINEL OFFICE.

Eugene B. Gordon died in Warsaw last night, having suicided. The sad news was conveyed to this office at noon today in a letter from J. E. Graves, who is a relative of the deceased. It reads as follows:

"Warsaw, Ind., April 11, 1900.—Dear Sir: I am instructed by Mrs. Eugene Gordon to inform you that her husband in a fit of despondency took two ounces of laudanum at 6 o'clock last evening from the effects of which he died at about 8:30 p. m.

"Funeral will take place Friday afternoon.

"Very resp'y,
"J. E. Graves."

Mr. Gordon was born November 7, 1848, at Warsaw, and was over fifty years old at the time of death. He was married and surviving him are the widow and two children, Chester, aged sixteen, and Genevieve, aged three years. He was a printer by trade, having served an apprenticeship in the office of the Indianian. Afterwards he worked at the case in Washington, D. C., and several of the larger cities of the east. In 1873-74 he worked in the Gazette office in this city, going to Toledo, and thence to Warsaw. At the latter place he again entered the office of the Indianian and remained there until 1886, when he came to this city and took a position in the office of the American Farmer. Four years later, when that publication changed its headquarters to Cleveland, Mr. Gordon secured employment in the composing room of The Sentinel and was in continuous service there up to last fall. He then returned to Warsaw, thinking he could find employment. In this he was disappointed, having worked as stated in a letter last week, only six days since locating there.

A few days ago the financial secretary of Typographical union No. 78, of this city, of which Mr. Gordon was a member, received a letter from him, requesting his traveling card. In that letter he stated that he had the promise of work in the southern part of the state and it was presumed he had gone there.

Mr. Gordon was also a member of Summit City lodge No. 36, A. O. U. W., and during his residence here took an active part in the work of the order.

Mr. Gordon possessed a geniality rarely found in man and to this characteristic is due, possibly, much that has resulted in keeping him in rather poor circumstances financially and finally led to the tragedy recorded in the foregoing.

BILL WILL PASS.

(Continued from First Page.)

lican had made such a statement why had he not investigated it?

"We do not believe it," cried Mr. Grosvenor. "We know it is a lie. (Republican applause). I do not say no man made the statement. But if he did he is a liar. (Democratic jeers). Let the gentleman from Tennessee bring in a resolution and it will be adopted in fifteen minutes."

"I did not make the statement myself," interrupted Mr. Richardson.

"Oh, no," retorted Mr. Grosvenor. "That is like the shining, slippery character of the gentleman." (Republican applause).

DALZELL GROWS FURIOUS.

At this juncture Mr. Grosvenor's time expired and Mr. Dalzell concluded the debate on the rule. Reverting to Mr. Richardson's characterization of the rule as an "outrage" he recalled the rule brought in when the democrats concurred in the senate amendments to the Wilson tariff bill, evoking frequent applause during the recital.

"Scribes, pharisees and hypocrites," he denominated the democrats for plating of the change of base made by the republicans. When the Porto Rican tariff bill was originally presented, he said, it had been advocated and opposed with the time-honored traditions of the respective parties.

The democrats had found their law in the Dred Scott decision, their politics in the philosophy of John C. Calhoun. The republicans had found their law in the speeches of Daniel Webster, their politics in the platform upon which Abraham Lincoln had been elected. The majority upon whose shoulders the responsibility rested, he said, were ready to assume it and he predicted, in conclusion, that the day was not far distant when the masses of the people of the country would recognize their course as wise and beneficent for the people of Porto Rico.

Mr. Richardson was on his feet as Mr. Dalzell closed with a motion to recommit the rule with instructions to report a new rule and a substitute bill providing:

"First. For free trade between the United States and Porto Rico.

"Second. A civil government for the territory of Porto Rico with no reverendum."

The speaker ruled that as the previous question had been ordered on the rule Mr. Richardson's motion was not in order.

"Vote, vote," came from many quarters and the speaker beat a lively tattoo to secure order while the vote was taken.

The viva voce vote was indecisive, and to save time a yea and nay vote was taken on the adoption of the rule.

INTENSE INTEREST.

The voting was followed with intense interest. The "whips," Long and Underwood, hovered about the desk, seeing that every possible vote was recorded.

The announcement of the adoption of the rule—ayes, 158; Nays 142—present and not voting 11, was greeted with salvos of applause on the republican side. The large majority was a general surprise. It was regarded as a test vote. It was decided that the time remaining, three and a half hours, should be equally divided between the two sides, Mr. Payne and Mr. Richardson to control the time on their respective sides.

Mr. Payne yielded to Mr. Watson (Ind.), who opened the debate.

Mr. H. C. Smith, of Michigan, and Mr. Warner, of Illinois, both opposed the bill on the ground that it was a breach of good faith which the people would not tolerate.

Mr. Jones, of Virginia, followed Mr. Watson. He devoted himself principally to an argument against the civil government feature of the bill.

Mr. Maddox, of Georgia, and Mr. Williams, of Illinois, also opposed the bill. The latter charged that that majority had abdicated to the sugar trust.

WILL GO TO NEW YORK.

Washington, April 11. President McKinley will go to New York on April 21 to deliver an address before the Protestant Ecumenical conference on foreign missions. This distinguished body of the Protestant churches of the world meets in Carnegie hall on that date and at 8 o'clock in the evening will listen to addresses by the president and representatives of the state and city of New York. The honorary president of the conference is former President Benjamin Harrison. President McKinley will remain in New York over Sunday. Early next month and possibly the last of this the president intends going to Canton for a few days to look over the repairs that are being made to his residence. Henry L. West, president of the Gridiron club, of this city, and Gen. H. V. Boynton, its former president, called at the white house today and invited the president to attend the dinner of the club on the 28th inst. The president said it would give him great pleasure to attend if he found it possible to do so.

IN THE SENATE.

Washington, April 11.—When the senate convened today Mr. Money reported from the committee on agriculture a bill setting apart a portion of the Arlington estate for an experimental fair, to be operated under the direction of the secretary of agriculture, and it was passed.

A resolution was adopted calling upon the president, if not incompatible with the public interest, to inform the senate whether any persons have been executed by garotte in Porto Rico since the United States authorities have been in control of the island, and if so, why the system of execution was employed.

A bill to establish a fish hatching and fish station in West Virginia was passed.

The resolution relating to the Quay case was laid before the senate and Mr. Burrows, of Michigan, rose to address himself to it. Mr. Allison, of Iowa, requested Mr. Burrows to yield to him that he might have the senate take up the District of Columbia appropriation bill.

This request was agreed to, it being understood that Mr. Burrows should proceed tomorrow with his speech. After Mr. Penrose, of Pennsylvania, had protested that appropriation bills should not interfere with consideration of the Quay case, the District of Columbia appropriation bill was formally taken up. The bill as reported to the senate carries $7,457,755.

Amy R. Seavey vs. Martin J. Stock, et al.

In the Superior Court of Allen County, State of Indiana.

By virtue of an order of sale, to me directed and delivered by the clerk of said court, in the above entitled cause, I have levied upon and will expose for sale by public auction, at the court house door, in said county, between the hours of 1 and 4 o'clock, p. m., of the 28th day of April, 1900, the rents and profits for a term not exceeding seven years, of the following described premises, viz:

That part of lot No. four hundred and eighty-three (483) in Hamilton's fourth (4th) addition to the city of Fort Wayne, described as follows, to-wit:

Commencing on the west line of Clinton street sixty (60) feet from the north line of Pontiac street; thence west on a line parallel with the north line of Pontiac street thirty (30) feet; thence north to the south line of Allen street, now called Woodland avenue, on a line parallel with the west line of Clinton street; thence east on the south line of said Allen street thirty (30) feet; thence south on the west side of Clinton street to the place of beginning in Allen county, Indiana.

And on failure to realize therefrom the full amount of the judgment, interest thereon and costs, I will at the same time, and in the manner aforesaid, offer for sale the fee simple of the above described premises. Taken as the property of the defendant to satisfy said order of sale.

ALBERT E. MELCHING,
Sheriff Allen County.
OWEN N. HEATON,

COMMITTEE IS THANKFUL.

The report of the committee in charge of the Lawton ceremonies in this city some weeks ago has filed a report showing that the total subscriptions received was $310.44, and the expenditures were $289.15. The balance of $27.29 has been turned over to the Lawton monument fund and the committee has issued the following card:

"The committee desires to thank the donors for their prompt and generous response to the call for the money necessary to defray the expenses incident to the reception of General Lawton's remains, which lay in state in this city. It assures us that true patriotism and unselfish heroism are highly appreciated by our citizens."

There will be special services Wednesday, Thursday and Friday evenings of this week at Heidelberg Reformed church. The monthly business meeting of the Woman's Missionary society will be held at the church Thursday afternoon at 2:30.

OVER THE STATE.

SOME OF THE HAPPENINGS IN HOOSIERDOM.

BOY ABDUCTED IN MUNCIE

HE IS THE HEIR TO A LARGE FORTUNE.

ESCAPED FROM HIS KIDNAPER

BUTLER MAN SUICIDES IN A RAILROAD WATER TANK.

Muncie, Ind., April 11.—A sensational attempt to kidnap the young heir to a large estate was made almost in the heart of the city last night. Arthur Nidy, aged 13 years, who was recently bequathed a fortune by his grandparents, was seized while walking on the railroad by a man resembling a tramp. He was being borne toward a waiting carriage, when his cries attracted the attention of an uncle, William Nidy, who succeeded in rescuing him. In the scuffle young Nidy tore open the shabby coat of his captor and claims that he wore a large diamond and was richly attired. The man escaped while the mysterious carriage disappeared. A posse has left in the direction taken by the disguised stranger. It is believed the boy was to have been held for ransom.

THE BELL WAS RUNG.

Wabash, Ind., April 11.—Four burglars forced the safe belonging to Alex Fulton, general merchant, at Ligio, this county, and but for the uproar raised by the inhabitants they would have escaped with between $1,000 and $1,500 which lay exposed before them. They had a key which opened the front door of the store and they exploded two charges of powder in the safe before the money chest was opened. Just when they were about to realize on their venture Mrs. Egnew, proprietress of the local hotel, ran out and began ringing the hotel bell, and the robbers, dropping the tools and leaving the money, ran away, going north. Postmaster Curnutt had $300 in the safe; Russell, a cattleman, $500, and Fulton, $800, all of which was found on the floor. The robbers left their tools and a bag.

FOUND DEATH IN WATER TANK

Butler, Ind., April 11.—Martin Reese committed suicide yesterday by jumping into the Wabash railway water tank. He was drowned before aid could be secured. He was about twenty years old and a son of the baggagemaster at the Wabash depot. No cause is assigned for the rash act.

KILLED BY A LIVE WIRE.

Elkhart, Ind., April 11.—Richard Miller, in the employ of Bornemann & Doll, yesterday afternoon, while working on the company's building, touched a live wire and was hurled to the ground by the shock. In his fall he grasped at another wire, which also proved to be "live," and his hand was terribly burned, but it failed to break his fall. His death soon occurred. Miller was thirty years old and the foreman of the works.

INDIANA MINERS IN A RIOT.

Washington, Ind., April 11.—A crowd of forty or fifty miners banded together yesterday afternoon. They went from saloon to saloon and forced the bartenders to give them drinks. They ran across Dick Gray, a non-union miner, who had refused to join their ranks, and dangerously wounded him. He was beaten with clubs and stabbed several times and is now in a critical condition. A miner named Frank Jennings, who is believed to be one of the assailants, was arrested by Chief of Police Cals.

On the way to the jail a crowd of miners surrounded the officer and forcibly took Jennings away from him and spirited him out of town. Sheriff McCord deputized several men to assist him and with a posse succeeded in dispersing the mob.

The Cabel company made a formal statement that if their men joined the union they would allow them to work, but would not recognize them as union men.

DAMAGES FOR RUINED LIFE.

Princeton, Ind., April 11.—Thomas M. Brown has filed suit in the circuit court here against the four saloon keepers of Oakland City for $5,000 damages on account of his son's life being wrecked by liquor. The plaintiff alleges that defendants have sold intoxicants to his son for the past ten years, since he was nine years old. He asks damages, because the boy is now a physical and mental wreck, unable to do service for his father and because of the immense sum he had paid for fines and costs incurred by the son when intoxicated by liquor sold him illegally by the defendants.

FOUGHT IN COURT.

Lebanon, Ind., April 11.—Last night during court in Frankfort Joint Senator S. R. Artman, of this city, was assaulted by R. L. Porter, of the firm of Porter, Hadley & Adams, brick contractors, of Tipton, Ind. During a statement to the jury Artman made a charge that some of the brick used by defendants were so soft that he had picked holes in them with a pocket knife. Porter resented this statement and followed it with blows upon Artman's head, knocking him down. Porter has been ordered to appear in court to answer for contempt.

AGED PIONEER DIES.

South Bend, Ind., April 11.—Mary Spittler Sigerfoose, who died yesterday, aged ninety-three years, was the daughter of the first white woman born in Ohio west of the Miami river. Her parents were the first white couple married in Montgomery county, Ohio. Her grandfather was scalped by Indians, but her father and two aunts, all very small, were grabbed up by the mother and saved by hiding in the bushes.

SAYS DESPERADO IS KILLED.

El Paso, Texas, April 11.—A report from Lordsboro, N. M., yesterday afternoon says that a sheriff's posse encountered the fugitive murderers Burt Ayard, Bravo Johnson and William Stiles in the mountains southwest of that point late yesterday afternoon and that Stiles was killed in a fight that followed. Ayard, Johnson and Stiles broke jail at Silver City a week ago and afterwards ambushed and murdered Officer George Scarborough and wounded Officer Burchfield, who were in pursuit of them. Yesterday a strong posse left Deming, N. M., to guard the mountain passes to the east and head off the fugitives should they start in that direction. Another posse headed by Sheriff Blair, of Grant county, started from San Simon at 3 o'clock in the afternoon to act in concert with the Deming posse and endeavor to round up the murderers of Scarborough, as well as capture the men who recently escaped from the Tombstone (Ariz.) jail.

NAVIES WILL DEMONSTRATE.

Berlin, April 11.—The Berliner Tageblatt learns from Kiel that an international naval demonstration will take place at Taku. The German squadron, consisting of the cruisers Hertha, Gefion, Irene and the Kaiserin Augusta, and the gunboats Jaguar and Iltis, under Admiral Bendmann, is at present stationed conveniently, so that within a few days the ships can be concentrated in the Gulf of Pe Chi Li.

THE MARKETS.

Chicago, April 11.—The government report putting the wheat condition at 82.1 per cent was much lower than the talent on 'change had expected. They believed also that this average does not include much damage of recent date. This, combined with reports of cold weather in the southwest, produced a strong market early. May wheat opened 1/2@3/4c over yesterday at 67 1/4@67 3/4c and on covering by shorts advanced sharply to 68 1/4c. The bulge met selling, however, and a reaction to 67 1/4c followed. At this point the market became steady. Local receipts were 52 cars, none of contract grade. Minneapolis and Duluth reported 310 cars against 371 last week and 188 a year ago.

The market later in the session managed to reach the level of first figures, but there was plenty for sale on the bulge and the market reacted to 67 1/4c, closing barely steady, May a shade over yesterday at 67 1/4@67 1/2c.

The corn market was active and strong early, helped mostly by the wheat strength. Offerings were not liberal and shorts were compelled to cover at some loss. May opened 3/4@1c up at 40 1/4@40 3/4c and touched 40 1/2c. The bulge brought out pressure from longs and a reaction took place, which carried May back to 40 1/8@40 1/4c. One man was reported to have unloaded 1,000,000 bushels. Receipts here were 310 cars, 10 over the estimate.

The pressure of long corn and the weakness of provisions later pulled May down to 39 3/4c and the close was weak, May 1/8@1/4c down at 39 1/2c.

Provisions were quiet and easier under the influence of liberal hog receipts and weaker prices at the yards. May pork opened be lower at $13.00 and sold off to $12.85; May lard 2 1/2c down at $6.92 1/2, easing to $6.92 1/2, while May ribs opened 5c lower at $7.10@7.12 1/2, advanced to $7.15@7.17 1/2 and reacted to $7.05.

The oats market was influenced by corn, the fluctuation of that market it followed in a small way. May opened 1 1/4@1 1/2c up at 24 1/8@25c, sold at 25c and then reacted to 24 1/2c. At the decline there was a fair demand and the market steadied. Local receipts were 136 cars.

There will be no session of the board of trade April 13, Good Friday.

THE CLOSE.

Prices at the close were as follows:

Wheat—April, 67c; May 67 1/4@67 5/8c; July, 68 1/2c; Sept., 69 1/2c.

Corn—April, 39c; May, 39 3/4c; July, 40 1/2@40 3/4c; Sept., 41 1/4c.

Oats—April, 24 1/2c; May, 24 3/8c; July, 24 3/8@24 1/2c; Sept., 23 3/4c.

Pork—April, $13.07 1/2; May, $12.07 1/2; July, $12.80.

Lard—April, $6.85@6.87 1/2; May, $6.85@6.87 1/2; July, $6.95; Sept., $7.05.

Ribs—April, $7.00; May, $7.00; July, $6.97 1/2; Sept., $6.95@6.97 1/2.

Flax—Cash N. W., $1.73; Cash S. W., $1.73; May, $1.73; Sept., $1.21; Oct., $1.19.

CHICAGO LIVE STOCK.

Chicago, April 11.—Cattle—Receipts, 18,000; market generally easier. Good to prime steers, $5.00@5.80; poor to medium, $4.15@4.90; stockers and feeders, $3.50@4.90; cows, $3.00@4.35; heifers, $3.10@3.75; canners, $2.25@2.80; bulls, $2.75@3.25; calves, $4.25@6.50; Texas fed steers, $4.00@5.25; Texas bulls, $3.25@3.75.

Hogs—Receipts today, 32,000; tomorrow, 28,000; left over, 7,562. Market active, 2 1/2@5c lower; top, $5.65. Mixed and butchers, $5.35@5.65; good to choice heavy, $5.55@5.65; rough heavy, $5.35@5.15; light, $5.30@5.62 1/2; bulk of sales, $5.50@5.57.

THE DAY ON WALL STREET.

New York, April 11.—Stocks generally reflected continued pressure to sell at the opening of the market. Losses were in almost all cases limited to small fractions and there were some notable exceptions on the side of gains. Sugar, the Baltimore and Ohio stocks and Brooklyn Transit rose from one-half to a point and Third Avenue jumped 2 1/2.

The urgent demand from the shorts advanced Third Avenue 6 1/2 to 121 1/2. There was no response in the general market and the bears made a vicious attack all around and put the list down 1@2 points. Third Avenue sagged to 118 1/2, but later rose to 123 1/2. Support developed in Sugar and there was a general rally at 11 o'clock on covering by shorts.

The recovery in prices brought out large offerings and prices yielded rapidly. Some stocks touched the lowest of the morning, the absence of support stimulating short selling. Third Avenue moved in its customary erratic manner, but held well above 120. Federal Steel then rose more than a point above last night's level and a number of stocks rallied as much as a point. The market became dull at the rally.

Bonds were active and lower.

NEW YORK PRODUCE.

New York, April 11.—Butter—Receipts, 5,025 pkgs; market steady; western creamery, 17@20c; factory, 15@17c.

Eggs—Receipts, 23,562 pkgs; market easier; storage western at mark, 12 1/2@12 3/4c; regular packing at mark, 12 1/4@12 1/2c; southern at mark, 11 1/4@12 1-3c.

Sugar—Raw, strong; fair refining, 3c; centrifugal, 96 test, 4 1/2c; molasses sugar, 3 13-16c; refined, strong.

Coffee—Market steady; No. 7 Rio, 7c.

THE MONEY MARKET.

New York, April 11.—Money on call easier at 3 per cent; prime mercantile paper, 4 1/2@5 per cent; sterling exchange firm with actual business in bankers' bills at $4.87 1/2@4.87 1/2 for demand and at $4.84 1/2@4.83 1/4 for 60 days; posted rates, $4.84 1/2@4.88 1/2 and $4.88; commercial bills, $4.83@4.83 1/2; silver certificates, 60 1/2@61 1/4c; bar silver, 59 1/2c; Mexican dollars, 47 1/2c.

THE INTERURBAN FRANCHISE

WAS NOT MENTIONED AT THE MEETING OF COUNCIL.

The Council Makes No Offer to Change Conditions—Fourth Street Matter.

The city council at its regular session Tuesday evening did not consider the contract of the Indiana and Ohio Traction company. The councilmen accepted the statement of the projectors of the company that they decided to drop the matter and not accept the conditions voted by the committee of the whole, and therefore did not refer to the franchise. John D. Olds was in attendance upon the meeting, but made no offer to accept the conditions.

The Fourth street matter will probably not be settled for years. It is expected that the Lake Shore railway company will begin injunction proceedings whenever it appears that the city is about to open the street and it is believed now that the men who were put to work grading approaches a few days ago were there for the purpose of giving the railway company an opportunity to get the matter into court. The city authorities are very anxious to have the courts reach a decision, but the railway will not act until it is compelled to do so.

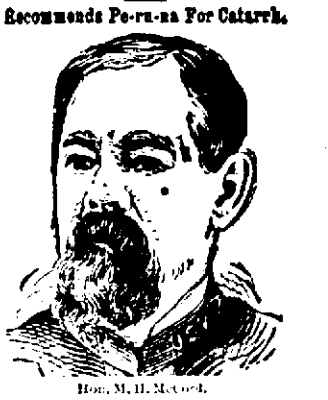
GOVERNOR M'CORD

Recommends Pe-ru-na For Catarrh.



Hon. M. H. McCord.

Hon. Myron H. McCord, Ex-Governor of New Mexico, in a letter to Dr. Hartman, from Washington, D. C., says:

Dear Sir—At the suggestion of a friend I was induced to use Peruna for catarrh, and after using one bottle I began to feel better in every way. It helped me in many respects. I was troubled with colds, coughs, sore throat, etc., but as soon as I had taken your medicine I began to improve and even got well. I take pleasure in recommending your great remedy to all who are afflicted with catarrh.—M. H. McCord.

The spring presents a much more favorable opportunity for the permanent cure of chronic catarrh, especially old, stubborn cases. Now is the time to begin treatment. Insist upon having Peruna. There are no successful substitutes for this remedy. Send to Dr. Hartman, Columbus, Ohio, for a free catarrh book.

A CRIPPLED MAN.

Yankton, S. D., Nov. Feb. 28, 1899.
The Dr. J. H. McLean Medicine Co., St. Louis, Mo.
Gentlemen—I have been using Dr. J. H. McLean's Liver and Kidney Balm from the first shipment you made me and have found it to be just what you claim it to be. Kindly send me your book giving treatment, &c., &c. Yours respectfully, W. F. BURTON.

We pity a man or woman who has lost the use of an arm or leg. But what is the difference between an arm which won't work and an internal organ which won't work? Many people have crippled livers and stomachs and kidneys. They are just as unfit to earn their living as the man who has no arm. Their meals won't work, they are listless, blue, miserable. All people of this sort need

Dr. J. H. McLEAN'S LIVER AND KIDNEY BALM.

They won't get well without it. It acts directly upon the liver and kidneys and all the organs intimately connected with them. It gives an appetite like a boy's. It invigorates the liver. It fills the blood with the life-giving elements of the food and makes it pure, rich, red and plentiful. Nothing "just as good" can be found at any medicine store. If you have any liver or kidney trouble or any symptoms of it, you should get this medicine immediately.

$1.00 AT ANY DRUGGISTS.

CELERY KING
NATURE'S CURE

It Makes Restful Sleep.

Sleeplessness almost invariably accompanies constipation and its manifold attendant evils —nervous disorders, indigestion, headache, loss of appetite, etc. To attempt to induce sleep by opiates is a serious mistake, for the brain is only benumbed and the body suffers. Celery King removes the cause of wakefulness by its soothing effect on the nerves and on the stomach and bowels.

Celery King cures Constipation and Nervousness, Stomach, Liver and Kidney diseases. 5

SNOW STORMS AND FROSTS THE ORDER.

THE FROST LINE GOES SOUTH

THIRTY DEGREES BELOW THE NORMAL

Chicago, April 11 —The whole west and southwest, including the states of Colorado, Wyoming, Nebraska, Kansas, Missouri, Iowa Illinois, Indiana and Ohio, is experiencing a series of rain and snow storms, accompanied by temperatures ranging from 15 to 30 degrees below normal, with heavy frosts over a large section of the wheat belt At Denver this morning thermometers registered 8 above and at Dodge City, Iowa, 18 above According to the United States weather bureau the storm is a continuation of the recent cloud bursts that caused the Austin, Texas disaster and swollen streams are heard from all over the west Several minor washouts have occurred, but so far the railroads have not experienced any serious trouble Weather bureau officials say the frost line will extend tonight as far south as the Ohio river at least.

RIVERS CONTINUE TO RISE

RED RIVER TERRITORY IS IN GREAT DANGER

High Water is Reported at All Points and the Streams are Filling Up Constantly

Denison Texas, April 11 —High water is reported at all points in the Red river territory The Red river has risen ten feet within the past twenty four hours The Washita is on a big boom and an overflow is threatened

Advices from Texarkana say that the Red river has risen eight feet and is increasing eight inches an hour The rise comes from the upper tributaries and is augmented by the heavy waterspouts of the past twenty-four hours in this section The Sulphur river and Little river are also booming, the latter being out of its banks in the lower lands

H. C. FRICK IS TO RETIRE

WILL DISPOSE OF INTERESTS IN CARNEGIE COMPANY

Got What He Contended for and Rumor Says He Will Buy Out the Clamps Shipyards.

New York, April 11 —A special to the Tribune from Pittsburg says:

"H C Frick will dispose of all his holdings—something over $16,000,000—in the Carnegie company just as soon as he can' said a big stockholder of the Carnegie company "He won what he contended for and will not remain to hamper Mr Carnegie or his partners"

It is said that Mr Frick and President Schwab are not on pleasant terms and this has done much toward keeping Messrs Frick and Carnegie apart

Officials of the Carnegie company deny that there is any truth in the report that the company will take in the Clamps concern, either in part or in whole or that any selling arrangement has been made whereby armor plates and structural material will be supplied the Clamps by the Carnegie company They say that if such a project is on it is locked up in the bosoms of Messrs Carnegie and Schwab

A rumor is current that Mr Frick will buy out the Clamps No foundation can be found for it, however Mr Frick refusing to discuss any of his projects, besides, he is interested in the concern of Mr Morse, of Wilmington, and the plant is under way near Philadelphia. It might be that it and the Clamps will consolidate but nothing of it can be learned here

MODELS BADLY INJURED

New York April 11 —A special to the Herald from Washington says Rear Admiral Hichborn, chief naval constructor, has been informed that eleven models of American warships were seriously injured during their transportation from New York to Havre on the converted cruiser Prairie All the models are valued at $100 000 The model which suffered the greatest damage was that of the Olympia To make the needed repairs it looked as though it would be necessary to send to this country to get workmen, but the French government offered the use of the French ship yard at Cherbourg, which was accepted The repairs will probably be of a temporary character It is intended by Rear Admiral Hichborn when the models are returned to Washington to have permanent repairs made at the Washington navy yard

WILL MEET IN WASHINGTON.

New Orleans, April 11 —William Wirt Howe, chairman of the committee of the American Bar association on John Marshall day, has announced that the day will be celebrated on the 4th of February, 1901, in the city of Washington, in cooperation with the bar association of the District of Columbia There will be a public meeting, at which the chief justice of the United States supreme court will preside, and at which President McKinley has promised to be present The oration will be delivered by Hon. Wayne MacVeagh, former attorney general of the United States and minister to Italy. The program also includes a banquet in the evening. It is expected that on the same day there will be local celebrations by the bar associations throughout the country.

THE ANNUAL MEETING.

The annual meeting of the board of directors of the Relief union was held in the Industrial school building on Tuesday afternoon The reports of the secretary and treasurer showed that during the past winter there have been fewer appeals for help, less destitution and fewer women who have had to help support their families The Order of Elks has been most helpful in the relief of the needy, contributing orders on grocers to the amount of $63 25 and 577 articles of clothing. Generous donations were made by the public schools in the way of groceries, vegetables and fruit to the amount of $120, together with 148 packages of clothing The firm of Wolf & Dessauer contributed cloth for clothing and from other donors 198 packages of clothing were received A discouraging feature of the work is the lyy decreased, there being but eighty-lyy decreased, there being btu eighty-three members The labors of the Industrial school and the Home for Emergencies have been fruitful of much good The annual election of officers was to have taken place, but excepting a few changes in the advisory board and the board of directors, no changes were made Mr Schlaudroff was elected to the advisory board, Mrs J H Bass was transferred to the honorary board and Mrs S C Hoffman, Mrs G W Mills and Miss Rudisill were elected to the board of directors The other members were re-elected

THE RAVAGES OF A TERRIBLE CURSE

SCROFULA is in almost every case traceable to some hereditary blood taint, "The sin of the parent visited upon the child." It is a terrible curse, whose ravages, unless arrested, lead to most distressing results in the form of swollen glands of the neck and throat, offensive sores, abscesses, consumption and premature death.

S. S. S. IS THE ONLY CURE FOR SCROFULA

It strikes at the very root of the disease, forces out the poison, purifies and enriches the blood, tones up the system, restores strength.

SSS

Mrs. Ruth Berkeley, Salina, Kansas, says: "Scrofula appeared on my grandchild's head and spread rapidly all over her body. The scabs on the sores would peel off, emitting a sickening odor. The disease next attacked her eyes, and we feared she would lose them. We gave her S S S., which at once made a permanent cure"

The excitement prevailing in New York over the suggestion that music be used to cure patients suffering from nervous and mental disorders ought to be unusual in view of the fact that the kind and quality of the music to be used has not been decided upon. In regard to the discussion, Dr. Charles A. Dana says: "Music is attractive to idiots, degenerates and persons of abnormal temperaments. It may be nothing to a lunatic, but so is a lot of balderdash."

They do say that the great Paris exposition, which is to open next month, is in a state of behindhandedness which beats all records. The fact should have taken a lesson from the Yankee hustlers who managed the Chicago world's fair, Omaha exposition and other enterprises of this sort. Any up-to-date American promoter would have had a contract to have the Paris show ready on time, and there would have been no failure to keep the contract.

Joseph W. Holden, who died at Old Orchard, Maine, last week, was the first person Holden who for many years preached the theory that the earth is flat. He started life as a farmer and was very successful. He was at one time a trial justice, and at another a member of the state legislature. He got his notion of the earth's flatness by sitting up several nights and noticing that the water in his back pond did not run out, when, according to other theories, the globe was upside down.

The unanimity of army officers in opposition to the proposed plan of substituting for the old system of promotion by seniority a new system which would permit of promotion by merit is not surprising, in view of the fact that the navy has had so much trouble with promotion by merit. Nevertheless, the test of war almost invariably shows that merit, not seniority, must govern if an army is to be successful in the field. Just now for example, the British newspapers are calling attention to the fact that the South African war has shown that the seniority system militates against the development of good generalship." Our own experience in the civil war was so similar that it would seem as though American officers would be advocates of reorganization.

G. J.'s hand is heavy on India. Over 2,000,000 of human beings are face to face with starvation in the sections where famine's ravages have been worst, and in other sections the plague is spreading rapidly and increasing in malignancy. It begins to look much as though these twin curses would sweep the Indian empire. Christian people of all the world should do all that is possible to help the stricken and now helpless millions of India. Societies of various sorts would do well to follow the example set by the Ladies' auxiliary of the Young Men's Christian association of Fort Wayne and do promptly and generously what there is ability to do. Large sums are admirable, of course, but smaller sums are welcome. Many small contributions will make a large total. A few dollars means life to many of the sufferers. Sums in any amount will be received at The Sentinel office and duly acknowledged. Each week they will be forwarded to the National association of the Young Men's Christian association, of New York, and thence telegraphed to India, that the starving may have immediate benefit of the contribution. Now is the time to give. Delay means death in many. Money is needed at once. If you can give no more than a dollar, send it along. It will help swell the fund and do much good.

The senate committee which heard the charges against Senator Clark, of Montana, has unanimously reported that the copper king be deprived of his seat. This is very good. It was shown beyond question that to get a seat in the senate William A. Clark spent not less than $150,000 and there is reason to believe the sum was very much above that. No such sum of money can be legitimately used in a canvass for office. There can only be one conclusion and that is that corruption was practiced. The senate will unseat Mr. Clark and a high duty will be well performed. But at the same time it is evident that the senate is going to do quite the contrary thing with respect to Matthew S. Quay, of Pennsylvania. Notwithstanding all the precedents are against the seating of Mr. Quay, it is plainly forecasted that senators are going to let him in on the governor's appointment and precedents will count for nothing. The fact that Mr. Quay is something of a "good fellow" is going to outweigh the constitution. Morally, Quay is as unfit to hold a seat in the senate as Clark. He stands for all that is vicious, demoralizing and corrupting in American politics. He recognizes no public duty. His only political tenets are to serve the party and hold onto his place, no matter what it costs in sacrifice of personal honor or detriment to the public good. Of the two men Quay is most to be feared and condemned. Clark bought his office for almighty and openly paid what he thought it was worth. Quay is silent, insidious and powerful. He spreads immorality in politics as a plague.

HELP THE STARVING

An Appeal to Fort Wayne People to Do Their Mite to Assist the Sufferers in India.

SEND SUBSCRIPTIONS TO SENTINEL.

In all the world's history no more pitiful spectacle has been presented to human gaze than that of the millions of people in India who are today facing the horrors of starvation by reason of the famine. We in a land of plenty can not appreciate the sufferings of this distressed people, but the language of want is a universal tongue, and the entire world is hearing the cry.

The cause is a righteous and a worthy one, and it is gratifying to know that Fort Wayne has made a start toward doing its share for the relief of these suffering people. At the home of Mrs. John A. Thieme Monday afternoon the Ladies' Auxiliary of the City Y. M. C. A. held a meeting and voted $100 toward this laudable purpose.

To further the work The Sentinel will receive and acknowledge contributions for this cause, and will forward them to the international committee of the Y. M. C. A., at New York, which has a man in the field who will see that the fund is properly applied to the relief of the famine sufferers. Contributions may be forwarded to The Sentinel, and acknowledgement will be made in this column. Let there be a generous response. The subscriptions to date are as follows:

WILL IMPROVE SCHOOL.

Miss E. L. Armstrong, of the Holton avenue school, has adopted a novel and promising method of raising a fund for improving the educational facilities of that school. In a letter to the friends and patrons of the school she says:

"We are going to ask you to lend your influence and assistance to the cause of education. We need to raise funds for our piano rent, for pictures to brighten our halls and rooms. We also need some books for the founding of a library in our building. Will you please buy and help us sell tickets to an Easter program and exhibit on Thursday, April 12, 1900? Also attend our Easter market of colored eggs, home-made candy and popcorn."

Dr. Proegler states that the quarantine on the cases of smallpox in Eel River township has been raised, the patients having recovered and no further indications of the disease appearing in the vicinity.

"Housework is hard work without Gold Dust"

TO WASH BRUSHES AND COMBS

To wash hair brushes and combs, dissolve a tablespoonful of

Gold Dust Washing Powder

in boiling water; when it is nearly cold, dab the bristles up and down without allowing the backs of the brushes to become wet; when the brushes are clean, dip them in plain cold water and dry them either by the fire or in the open air. Soap turns the ivory backs of brushes yellow, but Gold Dust does not injure them.

SHOP AND RAIL.

WABASH SHOPS NEARLY READY FOR BUSINESS.

WILL MOVE IN PART TODAY

TANK AND ERECTING DEPARTMENTS COMPLETED.

THE EAST CAR SHOPS CLOSED

MEN TURN OUT TO FUNERAL OF LATE FOREMAN.

The carpenters have turned the tank and a part of the erecting department of the new Wabash shops over to the mechanical department for service and the move into the building has already commenced. W. S. Danes, under whose supervision the work upon the building is done, is here today and to a Sentinel reporter he said that the store room and office would be completed inside of two weeks. The shop is a great improvement over the old one, which was destroyed by fire last summer, and for convenience of arrangement and size it is superior to any on the Wabash system. The company will be able to increase its shop force here when the new building is ready for business, if it is found that a bigger force is needed.

NOVEL RAILWAY SUIT.

A novel case arising from railroad accidents is decided by the supreme court of Pennsylvania in McAnnally vs. Pennsylvania Railroad company. The plaintiff, intending to cross the railroad tracks, entered upon the space between the safety gates and the nearest rail before the gates were lowered. Before he reached the track a train came along, the gates were closed behind him and he stopped close to the track. The gateman, regarding his position as perilous, called to him to "get back," but the plaintiff refused, and the gateman thereupon sought by force to compel him to do so. In the tussel between the gateman and himself he was thrown on the track and had his leg cut off by the train. The court, in its opinion, said: "This is a case of which it may well be said that nothing exactly like it appears in the reports, and which must be settled on general principles." And the decision was that the resistance the plaintiff made to the gateman's efforts to save him was the direct and proximate cause of the injury received, and that the company was not liable. A dissenting opinion was delivered by Justice Mitchell, in which he held that the plaintiff had a right to exercise his own judgment as to where he would stand and to take upon himself the risk of the consequences, and that the act of the gateman was a trespass, in the course of his employment, for which the railroad company was liable.

THE KNIGHT FUNERAL.

The 500 or 600 men employed at the east car shops braved snow, sleet and rain and turned out en masse to pay tribute to the memory of their departed foreman and friend, William Knight, whose funeral occurred this morning. It was announced yesterday that the men so disposed could go to the funeral, but it was not announced that the shops would close. So unanimous was the desire to pay this last respect to the late foreman that not a single man reported for duty and as a consequence there was nothing doing at the shops until after the noon hour. The funeral was under the auspices of the Masons and that order was out in great numbers also, swelling the sad gathering to proportions that far exceeded any that have occurred in shop or railway circles for many months.

A FAST RUN.

A fast run was made by the Wabash with its westbound continental limited on Thursday afternoon. The train left Tilton at 422, and arrived at Granite City, 176.6 miles, at 7:15 p.m., covering the run in 173 minutes. This included necessary stops for change of engine and removal of the dining car at Decatur, a stop at Taylorville and another at Litchfield for water. The run from Decatur to Litchfield, sixty-one miles, was made in fifty-seven and one-half minutes, and from Mount Olive to Edwardsville, 22.5 miles, in seventeen minutes. The average speed was 63.3 miles per hour. The celebrated Irish mail of the London and Northwestern railway used to be scheduled from London to Holyhead at forty-five miles per hour for a distance of 263 miles.

DEATH OF JOHN WHITE.

John White, chief clerk in the freight department at Van Wert of the Pennsylvania company, died last night. He was taken ill last Sunday night, having been in the best of health previous to that time, and his sudden demise has caused much sorrow in Van Wert, where he was highly respected. All the Pennsylvania trainmen knew Mr. White and will be sorry to learn of his death.

INSPECTING THE LINE.

A. W. Johnston, general superintendent of the Nickel Plate, spent several hours in the city last night, coming here on train No. 3 and leaving early this morning on No. 1. This is one of Mr. Johnston's periodical visits and it has no special significance.

PAY DAY DELAYED.

The Pennsylvania pay car will be two or three days late in reaching this city this month. According to custom it is due here next Monday, but notices have been posted to the effect that it will not arrive until next Wednesday, April 18.

INDUSTRIAL NOTES.

Nickel Plate Engineer C. Merritt is sick and off duty.

Silas Miller is a new employe in the yards at the Wabash shops.

Supt. E. A. Gould, of the Wabash was in the city yesterday afternoon.

James Roper and Ed Mennewisch, of the Pittsburg blacksmith shop, are sick and off duty.

The Terre Haute car works are crowded with work and have on their pay rolls over 800 men.

Frank Schwanz has been transferred from the carpenter to the tin department of the Wabash shops.

On Sunday twenty cars loaded with silver bullion passed over the Big Four, shipped from western mines.

Dr. E. F. Wagner has returned from York, Pa., where he went last Friday to see his father, who is ill.

Chief Dispatcher W. H. Tigar is spending a day or two in Chicago in the interest of the department he represents.

Engineers P. Titus and Charles Swinney and Fireman D. L. Mason, of the Pittsburg, are off duty on account of sickness.

Eugene McCann, axle inspector for the Wabash company, went to New Albany this morning to inspect a number of axles.

Engineer J. C. Lynch resumed his run on the Nickel Plate yesterday, after an absence on account of sickness in his family.

Charles Wright this morning quit a position he held in the Wabash machine shop. He is undecided as to his future movements.

Conductor Kitselman, of the Nickel Plate, has been granted a few days' absence from his duties and will visit friends in another city.

Brakemen Joseph A. Deahl and J. C. Stewart, who were enjoying a few days rest, have returned to their work on the Nickel Plate.

J. D. Quinn has taken a position as yard brakeman with the Pennsylvania company. He was formerly a Grand Rapids and Indiana brakeman.

Ernest Bonjour, a boilermaker at the Bass works, resumed his duties in that establishment this morning. He had been attending court a few days.

C. S. Crane, general passenger agent of the Wabash, arrived in the city at 6:10 this morning and remained here until 11:55, when he left for Toledo.

Yesterday the Indiana Manufacturing company bought two 150-horse power boilers of the Bass Foundry and Machine company, delivery to be made this week.

Boilermaker H. Sinnegan had a foot painfully injured at the Kerr Murray works yesterday by a heavy iron falling upon it. He will be crippled and unable to work for some time.

Thomas J. Foley, general inspector of transportation of the Pennsylvania lines west of Pittsburg, was in the city yesterday in an official way and to spend a few hours with his relatives.

The heavy gale of yesterday made it impossible to run some of the heavy freight and passenger trains on schedule time. No. 3, on the Nickel Plate, was an hour late in reaching this city.

W. T. Agerter, of Lima, Ohio, was in the city yesterday on business with the Kerr Murray works, which is furnishing a number of castings for him. Mr. Ageter is engaged in the manufacture of churns.

John Hill has resigned his position in the Bass boiler shop. He has secured employment with the Fort Wayne Traction company, park line department, and will immediately commence work there.

Next Sunday the Big Four and the Cincinnati, Hamilton and Dayton roads will inaugurate the Sunday excursion business between Indianapolis and Cincinnati, the fare being $1.25 for the round trip.

The Baltimore and Ohio Southwestern is now working a day and night force at its shops in Washington, Ind., and employing the largest number of men in the history of the company. Its entire equipment is undergoing a general overhauling.

Edward Harrington and William Griffin have taken positions in the Kerr Murray works, the former in the foundry and the latter in the boiler shop.

John McDonald, a boilermaker who has been employed in the Wabash shops at Peru, has moved here and will work in the shops under Foreman G. G. Nicol.

Among the half-dozen or more shipments from the Electric works today were a car load of mast arms to Philadelphia and an incandescent dynamo to Morelia, Mex.

E. C. Allen, of the Grand Rapids and Indiana; W. H. Parmalee, of the Hoosac Tunnel, and A. Hughston, of the Union Pacific, traveling agents, were in the city yesterday.

There are over 100 names on the sick and disabled list of the Pennsylvania Voluntary Relief association on this division. The large number of sick members is due to the very inclement spring weather which has prevailed for the past four or five days.

N. R. Adriance, commercial agent of the Wabash railroad for Colorado and Utah, has been offered and has accepted a situation in the fast freight service of the Wabash at St. Louis. It is not yet known who will be his successor in the territory he leaves.

Louis A. Waterson has moved here from Garrett, Ind., and this morning he took a position in the Pittsburg blacksmith shop, where his brother has been employed for some time. Mr. Waterson was employed as a fireman on the Baltimore and Ohio road for several years.

John McLaughlin, a machinist, who has been working at the Bass shops for two years, resigned his place there last night with the intention of going to Duluth to work in ship building shops. Mr. McLaughlin worked in the electric works before going to the Bass works.

Conductor Sylvester McMahon took his run out on the Pittsburg last night for the first time in three weeks. He had a severe attack of the grip. Mr. McMahon is one of the oldest, in term of service, of Pennsylvania passenger conductors, and is popular with railway men and the public.

Indianapolis Journal: "It is proposed to further shorten the running time over the Pittsburg, Fort Wayne and Chicago. The improvements that have been going on for three years in the way of widening the roadbed, the modification of curves and reduction of grades making such increase of speed perfectly safe."

In the general offices at Boston of the Boston and Albany road there is in the accounting department a man who is eighty-three years old and has held his present position sixty years; he now receives $175 per month. His superior officers would prefer that he did not come to his office earlier than 9 a. m., but he never fails of being at his desk at 8 a. m., when the younger men appear, and no man in the service is more correct in his accounting and style of penmanship.

A party of New York Central locomotive engineers arrived in Denver on Sunday morning and will remain in the city until today. The party includes over 100 old-time engineers on the Vanderbilt lines, all being Brotherhood men. The party travels by special train. It left Buffalo March 20, at 10:30 a. m., and when it arrives at that place, April 21, at 7:50 a. m., it will have covered 7,403 miles in the states of New York, Pennsylvania, Ohio, Indiana, Illinois, Missouri, Tennessee, Mississippi, Louisiana, Texas, Arizona, California, Nebraska, Iowa, Wisconsin, Michigan and Canada.

Eastbound out of Chicago last week the all rail routes carried 206,917 tons of grain, flour and provisions, against 204,009 tons the preceding week, and 80,057 tons the same period of last year. This week traffic is not quite so heavy, though it will probably reach the 200,000 tons mark.

The work of tearing down the old Bee Line depot, near the viaduct on South Alabama street, Indianapolis was commenced on Saturday. The depot was built in 1853 under the John Brough administration, and was enlarged in 1862.

Grand Master A. Dodge, of the Brotherhood of Railway Trainmen, with headquarters in Cleveland, was in the city yesterday in the interest of the order. He is on a tour of the cities wherein are lodges of the order. Mr. Dodge addressed a meeting of the lodge here yesterday afternoon.

Early yesterday morning fire destroyed a small trestle bridge on the Wabash road at a place called Monclove, near Toledo. Passenger trains detoured over the Baltimore and Ohio and the Cincinnati, Hamilton and Dayton roads, and were not greatly delayed, being able to make up lost time before this city was reached. Freight trains, however, were unable to get through until the bridge was replaced with a new one.

The Pennsylvania is planning unusually extensive improvements on its lines east of Philadelphia. The many improvements between Philadelphia and Pittsburg on the main line, which have been in progress for several years, are practically completed, and attention will now be turned to the New York division. A feature of the work will be the elimination of a large number of grade crossings. Through Newark and New Brunswick, N. J., the tracks will be elevated at great expense.

THE BOSSES DON OVERALLS

CHICAGO EMPLOYING PLUMBERS FINISH A CONTRACT.

A Job Left Incomplete by Strikers is Carried on by Men Who are Worth Millions.

Chicago, April 11.—Twelve men in overalls which were spotless and whose hands looked anything but accustomed to manual labor filed into the Marshall Field building, against which the unions have called a strike, and went to work.

They were employing plumbers, whose aggregate wealth foots well up into the millions. In order to fulfill E. Baggott & Co.'s contract on the building they volunteered last night to step into the breach made by the strikers and with the aid of such skill as remained to them after years spent in watching growing bank accounts, to finish the plumbing work in the structure.

Among them were M. J. Coroby, who, as he placed his soldering iron in the coals, might have been preparing to buy the whole block, for he is rated a millionaire.

And there was Thomas Conlin, whose wealth is estimated at half a million dollars.

Paul Radieski, said to be worth $200,000, worked with great activity and apparent enjoyment.

Frank Falk, Charles Herbert and ex-Alderman Alexander Watson, all credited with liberal fortunes, were others in the volunteer ranks now warring against the Building Trades Council.

All was quiet around the big business block early today when the employers who forsook their desks to take up the soldering irons passed through a door guarded by a couple of gigantic special policemen and were observed from a safe distance, by the strikers, whose place they took.

THE GOVERNMENT DEFRAUDED.

San Francisco, April 11.—Five hundred pounds of plug cut tobacco have been seized in various local stores by internal revenue agents because the packages were insufficiently stamped. This tobacco, manufactured by a St. Louis firm, has been put up in packages weighing from an ounce and two-thirds to two ounces, and the packages had been uniformly stamped as weighing an ounce and two-thirds. Collector Thomas, who made the discovery of this revenue law violation, says that the fraud has evidently been carried on very extensively and he estimated that the cost to the government has been fully $50,000 a year. A general search for under-stamped packages has begun and all tobacco found to exceed the weight indicated by the stamps will be confiscated.

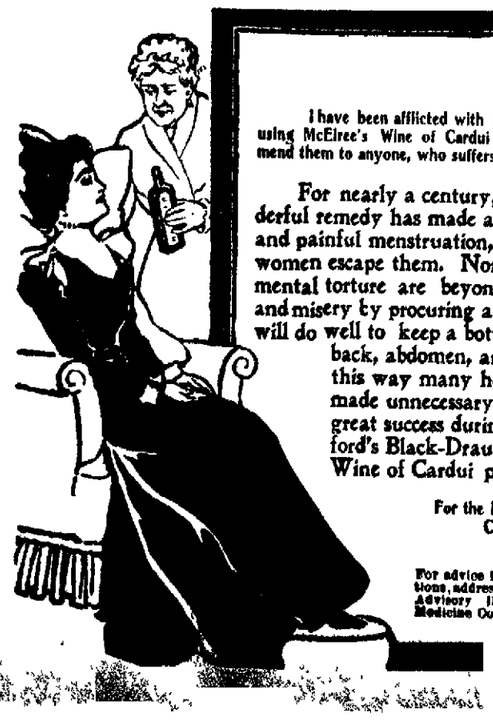
How to Avoid Pain



I have been afflicted with pains in the back and hips, and bearing down pains ever since I became a woman. Last spring I commenced using McElree's Wine of Cardui and Thedford's Black-Draught, and they have done me a wonderful amount of good, and I wish to recommend them to anyone, who suffers as I did.
MELISSA CREMEANS.

For nearly a century, Wine of Cardui has been helping women to avoid pain and suffering. This wonderful remedy has made a reputation for curing "female diseases" that no other medicine enjoys. Irregular and painful menstruation, leucorrhoea and falling of the womb are the most frequent female disorders. Few women escape them. None but a woman knows what they are. The terrible dragging pains and oppressive mental torture are beyond description. But Miss Cremeans' experience shows you can avoid this suffering and misery by procuring a $1.00 bottle of Wine of Cardui at your drug store and taking it as directed. Women will do well to keep a bottle of Wine of Cardui on hand for immediate use when sick headaches, pains in the back, abdomen, arms and legs, and other troubles coming from menstrual derangements appear. In this way many hours of suffering may be thwarted and the visits of the family doctor frequently made unnecessary. Wine of Cardui should be given every girl at the age of puberty. It is used with great success during pregnancy and the "change of life" and after child-birth or miscarriage. Thedford's Black-Draught, the companion medicine for the stomach, liver and kidneys, assimilates with Wine of Cardui perfectly.

Eddyville, Neb., May 11, 1899.
For the last two months I have had pain in my back and bowels, and got no relief until I used McElree's Wine of Cardui and Thedford's Black-Draught, and now I am up and doing my housework.

INDIGESTION

Cured by Johnson's Dyspepsia Cure

"I suffered severe years with indigestion and Stomach trouble, so I could not sleep. I tried several remedies and consulted doctors, but the evil seemed to grow worse. A friend advised me to try Johnson's Dyspepsia Cure. I tried it, did not believe, and am now feeling better than I have for years. I have a good appetite, sleep well, and am in every way improved. Indigestion is incurable, which I have proved to be a mistake, within a couple of months. I am taking pleasure in recommending Johnson's Cure to those who are suffering from indigestion. MANITOBA WAVE IS TEARING ACROSS THE COUNTRY.

MEDICINE HAT LETS LOOSE

SNOW STORMS AND FROSTS THE ORDER.

THE FROST LINE GOES SOUTH

THIRTY DEGREES BELOW THE NORMAL.

Chicago, April 11.—The whole west and southwest, including the states of Colorado, Wyoming, Nebraska, Kansas, Missouri, Iowa, Illinois, Indiana and Ohio, is experiencing a series of rain and snow storms, accompanied by temperatures ranging from 15 to 30 degrees below normal, with heavy frosts over a large section of the wheat belt. At Denver this morning thermometers registered 8 above and at Dodge City, Iowa, 18 above. According to the United States weather bureau the storm is a continuation of the recent cloud bursts that caused the Austin, Texas, disaster and swollen streams are heard from all over the west. Several minor washouts have occurred, but so far the railroads have not experienced any serious trouble. Weather bureau officials say the frost line will extend tonight as far south as the Ohio river at least.

RIVERS CONTINUE TO RISE

RED RIVER TERRITORY IS IN GREAT DANGER.

High Water is Reported at All Points and the Streams are Filling Up Constantly.

Denison, Texas, April 11. High water is reported at all points in the Red river territory. The Red river has risen ten feet within the past twenty-four hours. The Washita is on a big boom and an overflow is threatened.

Advices from Texarkana say that the Red river has risen eight feet and is increasing eight inches an hour. The rise comes from the upper tributaries and is augmented by the heavy watersprouts of the past twenty-four hours in this section. The Sulphur river and Little river are also booming, the latter being out of its banks in the lower lands.

PURE FOOD EXPOSITION.

Tonight will be the last opportunity to see the moving pictures at the pure food exposition. These, with the concert program to be given by Kempker's orchestra, are worth several times the admission. The battle of San Juan hill will be repeated. To witness the advancing ranks, the valleys fired, the patriots falling, the colors unfurled and the dead and wounded borne away just as it occurred is certainly wonderful to behold. Other equally interesting subjects will be introduced. The experts, if you give them a chance, will interest you with their knowledge of this occult science. At 3 p. m. Thursday Mrs. Tenje will lecture on "Vegetables."

KELLOGG GETS A SENTENCE.

New York, April 11. James B. Kellogg, the head of the E. S. Dean company, was today sentenced to seven years and six months in state's prison. Kellogg was convicted of grand larceny in the first degree, after a trial lasting four weeks. He took the matter very calmly. The lawyer succeeded to stay the commitment until tomorrow to enable counsel for Kellogg to go before the supreme court and secure a stay pending an appeal.

BEARS SYMPATHY TO KRUGER.

New York, April 11. James Francis Smith, District messenger boy 1541, sailed on the St. Louis today with a message of sympathy to President Kruger, signed by 28,854 school boys. He was accompanied by a reporter of the Philadelphia North American. Smith was given an enthusiastic send off by an immense crowd.

EXCELLENT RESULTS.

THEY HAVE RESULTED IN A STEADY GAIN OF POPULARITY.

People Who are Ever Ready to Recommend What Has Done Them Much Good.

The people of Fort Wayne feel very grateful for the great benefit they have received from the use of Morrow's Kid-ne-oids, the great remedy for backache, dizziness, sleeplessness, nervousness and all disorders arising from the kidneys. Morrow's Kid-ne-oids cure where other remedies have failed and the people of this city have not been slow to find this out and they add their testimony that their friends may know what to use and get cured.

John Hayes, a carpenter, residing at 561 Broadway, says: "Three years ago I began to notice that my kidneys were not working properly. It did not alarm me at first, but I kept growing worse, although I used different household and catch remedies without receiving any material benefit. I purchased a box of Kid-ne-oids and began using them according to the directions. They completely cured all backache, which used to be very severe, and restored my nerves to their former strength. I sleep well at night and rise refreshed. I urge their use upon all sufferers whose cases are similar to mine."

Morrow's Kid-ne-oids are not pills, but yellow tablets, and are put up in wooden boxes, which contain enough for about two weeks' treatment and sell at fifty cents a box at all drug stores and Ranke & Nussbaum's drug store.

AMERICAN LEAGUE.

Chicago, April 12.—Magnates of the American base ball league held their meeting today prior to the formal opening of the base ball season of 1900. The meeting was an important one, as the playing schedule prepared by President Ban Johnson came up for adoption and other important business was transacted, including action on the peace agreement between the American and National leagues, involving the placing in Chicago of an American league team under the management of Charles Comiskey; the taking over of the National league grounds in Cleveland as American league territory, and the adoption of a general plan to work in harmony with the major league.

The meeting, which was held at the Great Northern hotel, was attended by all the officials of the league, including President Johnson F. T. Killyea and Conny Mack, of Milwaukee; Comiskey, of Chicago; Manning, of Kansas City; McAleer, of Cleveland; Saulspaugh, of Minneapolis; Watkins, of Indianapolis; Burns and Stallings, of Detroit, and Franklin, of Buffalo.

All of those present spoke enthusiastically of the prospects of a successful season, and it was the belief that all the articles of agreement with the National league would be adopted with but little debate. The season is to open here April 19, with a series between Milwaukee and Comiskey's White Stockings. Comiskey announced that his grounds were in readiness.

NEW CATCHER HERE.

J. P. Kleinow, a new catcher signed by Manager Glasscock, has arrived in the city and is making acquaintance with the other players. Kleinow is a stockily built young man, with auburn locks, and brings with him a reputation which should guarantee him a permanent berth with Glasscock's hustlers.

NOTES.

Jouett Meekin has signed with Pittsburg.

Carrick will probably pitch the opening game for New York against Brooklyn.

"Kid" Ogden, who played with Fort Wayne years ago, will be with Muncie this season.

Connie Mack has released Nicol, Gray, Stafford and Weaver. Gray or Weaver would be a good man for Fort Wayne.

The Philadelphia management tried to buy McGraw and Wallace from Frank DeHass Robison, but Mr. Robison refused to sell either at any price.

Latimer has been sent to his home in Lebanon, Ohio, on account of his wife's illness. Indications are that "Tacks" will not be retained by the Pittsburg team.

Frank Quinn, who played with Mansfield part of last season and later signed with Chicago, has been sold to Watkins and will play with Indianapolis this season.

WHITNEY-YATES.

The marriage of Ira Thomas Whitney and Miss Cora Agnes Yates was solemnized last evening at 19 Miner street in the presence of a few intimate friends. The officiating clergyman was Rev. D. T. Williams, of the South Congregational church.

QUARTERLY MEETING.

Next Tuesday evening at 8 o'clock the quarterly meeting of the Young Women's Christian association will be held at the association rooms, on West Berry street. The meeting promises to be most interesting and helpful and will doubtless be largely attended.

A commission of three members, one a native of Porto Rico, is to be named to revise and codify the laws of Porto Rico.

The act for a civil government is to go into effect May 1, 1900.

IN THE SENATE.

Washington, April 12.—When the senate convened today Mr. Cullom presented the conference report on the legislative, executive and judicial bill. The report was agreed to.

Mr. Jones, of Arkansas, chairman of the democratic national committee, addressing the senate on a question of personal privilege, defended his action in offering an amendment to the Porto Rico relief bill, proposing to refund the duties that had been collected from the people of Porto Rico to the people who had paid these duties. This action was attacked by Mr. Dolliver, of Iowa, in the house yesterday during the debate on the Porto Rico tariff and governmental bill. Mr. Jones said he had offered his resolution from the conviction that the government of the United States had no right to levy any tariff duties upon this product coming from Porto Rico and if the government had not such right it was common honesty to give the money back to the people from whom it had been taken.

He said that he is not in the confidence of the sugar trust and had never looked to see who had paid the revenues nor where this money would go. He had withdrawn the amendment, having become satisfied that the whole matter should be left to the courts to determine.

Mr. Morgan made an unsuccessful attempt to have the Nicaragua canal bill made the order of business for 2 o'clock April 30.

Mr. Burrows, of Michigan, then addressed the senate on the resolution relative to the seating of M. S. Quay as a senator from Pennsylvania, speaking at length in opposition to Mr. Quay.

IN THE HOUSE.

Washington, April 12.—Mr. Cooper, chairman of the committee on insular affairs, called up in the house today the resolution for which he has asked unanimous consent several times, to authorize the secretary of the treasury to designate banks in Porto Rico, Cuba and the Philippines as government depositories. A number of amendments were offered and rejected, the debate at times being quite spirited. The resolution was passed.

ONE MORE OF THE SERIES.

Paris, April 12.—The count of Lubersac and Baron Edouard Rothschild, a son of Baron Aphonso Rothschild, fought a duel with swords today in the neighborhood of this city. Baron Edouard Rothschild was deeply pricked in the right forearm, but was able to return home for lunch and to go on a stroll this afternoon.

This duel is another of the series of encounters arising from the count of Lubersac's letter to Baron Rothschild, son of Baron Gustave Rothschild.

POISON IS FOUND.

DR. L. P. DRAYER'S TESTS REVEAL ARSENIC.

IT WAS MIXED WITH COFFEE

CAUSE OF ILLNESS IN REV. C. C. CISSELL'S FAMILY.

DRUG'S PRESENCE A MYSTERY

NO ONE KNOWS HOW IT CAME TO BE THERE.

The four members of the family of Rev. C. C. Cissell who were taken suddenly ill Tuesday night, and the son who suffered a similar experience after partaking of breakfast on Wednesday morning were suffering from arsenical poisoning, and the presence of the dangerous drug has been located in the coffee from which the family has been using. This is the result of the chemical analysis completed by Dr. L. P. Drayer, the city chemist.

It will be recalled that soon after the supper hour Tuesday evening Mrs. Cissell was taken quite ill; later her aged parents, Mr. and Mrs. Keisling, of Middletown, Ind., who were guests at the home, were similarly affected, and about 11 o'clock a young son of the family was the fourth to become ill. Dr. J. Hetrick, who was called, soon had the patients out of danger, and it was believed the milk used had been contaminated. Wednesday morning another son, Earl Cissell, was taken ill after breakfast, and as he had used none of the milk, Dr. Hetrick began an investigation of the other food which had been used by the family.

The symptoms were those of arsenical poisoning, and in the can of coffee the doctor found some foreign substance which he believed was an arsenical preparation, and about one-fourth of a pound of the coffee, together with a sample of the milk, was sent to Dr. Drayer for analysis. Dr. Drayer found no impurity in the milk, but in the coffee was a quantity of arsenic in combination with other drugs similar to those used in a number of preparations for destroying rats. The poison seemed to be thoroughly mixed through the coffee as though it had been placed in the can and then shaken. One mass of the poison found weighed four grains. While Dr. Drayer made no quantitive analysis, it is certain a large amount of the poison was present.

How the poisonous drug came to be there, however, is a mystery no one has been found able to explain. It is certain, though, that it must have been placed there some time between noon and the supper hour on Tuesday. The coffee had been purchased on Saturday, and the family had been using from it at every meal up to noon on Tuesday with no bad results. The coffee was kept in a closed tin can in a cupboard in the kitchen at the rear of the house.

The door of this kitchen is never locked during the daytime, and on Tuesday afternoon Mrs. Cissell and the children were absent from the home, while her parents occupied the upper rooms of the house, and both front and rear doors were unlocked, so that an intruder would have had free access to the first floor of the house without danger of attracting attention. So far as is known, however, nobody was seen to enter the premises. The family had a portion of a box of rat poison in the house, but it is their belief this had not been disturbed.

Rev. Cissell has been absent from the city and knows nothing of the circumstance, but he is expected home tonight. Mrs. Cissell said to a Sentinel reporter this afternoon that they were entirely unable to account for the presence of the poison in the coffee. She was not aware that they had an enemy who would attempt to poison the family, and was thankful all had escaped more serious consequences. The son, Earl, had not yet entirely recovered from the effects of the drug, but other members of the family were now experiencing no bad results, save for some weakness. Her parents, Mr. and Mrs. Keisling, left this morning for their home at Middletown, Ind.

CLUB HOUSE DAMAGED.

New York, April 12.—The handsome building of the Catholic club in West Fifty-ninth street was badly damaged by fire early this morning. The fire had gained considerable headway before it was discovered and a number of wealthy and prominent club men, who live in the building, had narrow escapes. One of them, James Fitzpatrick, was taken from the fifth floor window by two firemen and safely brought down an extension ladder. The police estimate the damage at about $38,000, but it is believed that the injury to a valuable library of about 25,000 volumes and the dripping of water through on the decorations and furniture will cause a loss considerably in excess of that figure.

THE IDOL OF THE TURF.

The Most Popular Jockey in America and England Recommends Stuart's Dyspepsia Tablets.

No jockey has ever appealed so strongly to public favor as Tod Sloan.

He has achieved more than his most noted predecessors ever attempted and stands in a class by himself.

Not satisfied with his successes in his native country, he went to England and now his fame as a successful horseman is on the tip of every tongue not only in this country and England, but in every section of the globe where racing has found favor.

When Todd first went to England his termerity was openly laughed at, but the little American played skittle with his English rivals and his victories made all England gasp.

Having the stamp of royal approval, society both at home and abroad "lionize" him and he is feted and petted to an extent that would turn an ordinary mortal's head.

The great jockey was in such demand socially and dined and wined to such an extent that it was feared his health would give way. Too much society and the nervous strain of racing told on him.

A two weeks' trip to America made him acquainted with Stuart's Dyspepsia Tablets and their remarkably restorative effects on a depleted digestive apparatus and he recommended them in unstinted terms to a friend, saying "Stuart's Dyspepsia Tablets are the best thing I know of for keeping the stomach in condition and appetite in good repair."

Thousands of former dyspeptics can vouch for the truth of Tod Sloan's words, as "Stuart's Dyspepsia Tablets" have become a household word in America, and few families are without them. One or two taken after meals keep the stomach sweet by causing prompt and healthy digestion of the food.

Perfectly healthy people use them after heavy dinners to keep their good health and to make sure that no ill effects will follow an unusually hearty meal.

Your druggist will tell you or your doctor either that Stuart's Dyspepsia Tablets are composed only of digestive ferments, Asceptic Pepsin, Hydrastis, fruit acids, etc., and for the strong stomach as well as the most delicate, constitute a safeguard against indigestion and stomach troubles.

The Woman's Christian Temperance union of this city was among the first in Fort Wayne to respond to the appeal for funds to aid the famine sufferers in India. Some time ago $5 was sent by the union to the New York headquarters and it has been acknowledged.

MILLIONS GIVEN AWAY.

It is certainly gratifying to the public to know of one concern which is not afraid to be generous. The proprietors of Dr. King's New Discovery for Consumption, Coughs and Colds, have given away over ten million trial bottles and have the satisfaction of knowing it has cured thousands of hopeless cases. Asthma, Bronchitis, LaGrippe and all Throat, Chest and Lung diseases are surely cured by it. Call on Dreier Bros., druggists, and get a free trial bottle. Regular size 50c and $1.00. Every bottle guaranteed.

California has a prune known as the "Gold," which is said to be twice as prolific and double the size of the ordinary French prune.

RESOLUTIONS ON THE DEATH OF WILLIAM KNIGHT.

Whereas, God, in His infinite wisdom, has called out of time into eternity the soul of our beloved foreman and shopmate, Mr. William Knight, be it, by the employes of the Pennsylvania company car shop, resolved—

1. That we appreciate the true friendship and courtesy, together with a noble example of patience, that always characterized his relations to us.

2. That we appreciate the impartial manner in which he governed the men under his authority, helping the unfortunate and inspiring all to renewed effort in the face of every failure.

3. That we thus convey to the wife and family of our deceased friend our heartfelt sympathy in this hour of affliction and pray that the arms of the Infinite may ever be beneath them and to them we pledge our mutual friendship.

SHOP AND RAIL.

WABASH SHOPS NEARLY READY FOR BUSINESS.

WILL MOVE IN PART TODAY

TANK AND ERECTING DEPARTMENTS COMPLETED.

THE EAST CAR SHOPS CLOSED

MEN TURN OUT TO FUNERAL OF LATE FOREMAN.

The carpenters have turned the tank and a part of the erecting department of the new Wabash shops over to the mechanical department for service and the move into the building has already commenced. W. S. Danes, under whose supervision the work upon the building is done, is here today and to a Sentinel reporter he said that the store room and office would be completed inside of two weeks. The shop is a great improvement over the old one, which was destroyed by fire last summer, and for convenience of arrangement and size it is superior to any on the Wabash system. The company will be able to increase its shop force here when the new building is ready for business, if it is found that a bigger force is needed.

NOVEL RAILWAY SUIT.

A novel case arising from railroad accidents is decided by the supreme court of Pennsylvania in McAnnally vs. Pennsylvania Railroad company. The plaintiff, intending to cross the railroad tracks, entered upon the space between the safety gates and the nearest rail before the gates were lowered. Before he reached the track a train came along, the gates were closed behind him and he stooped close to the track. The gateman, regarding his position as perilous, called to him to "get back," but the plaintiff refused, and the gateman thereupon sought by force to compel him to do so. In the tussel between the gateman and himself he was thrown on the track and had his leg cut off by the train. The court, in its opinion, said: "This is a case of which it may well be said that nothing exactly like it appears in the reports, and which must be settled on general principles." And the decision was that the resistance the plaintiff made to the gateman's efforts to save him was the direct and proximate cause of the injury received, and that the company was not liable. A dissenting opinion was delivered by Justice Mitchell, in which he held that the plaintiff had a right to exercise his own judgment as to where he would stand and to take upon himself the risk of the consequences, and that the act of the gateman was a trespass, in the course of his employment, for which the railroad company was liable.

THE KNIGHT FUNERAL.

The 500 or 600 men employed at the east car shops braved snow, sleet and rain and turned out en masse to pay tribute to the memory of their departed foreman and friend, William Knight, whose funeral occurred this morning. It was announced yesterday that the men so disposed could go to the funeral, but it was not announced that the shops would close. So unanimous was the desire to pay this last respect to the late foreman that not a single man reported for duty and as a consequence there was nothing doing at the shops until after the noon hour. The funeral was under the auspices of the Masons and that order was out in great numbers also, swelling the sad gathering to proportions that far exceeded any that have occurred in shop or railway circles for many months.

A FAST RUN.

A fast run was made by the Wabash with its westbound continental limited on Thursday afternoon. The train left Tilton at 422, and arrived at Granite City, 176.6 miles, at 7:15 p.m., covering the run in 173 minutes. This included necessary stops for change of engine and removal of the dining car at Decatur, a stop at Taylorville and another at Litchfield for water. The run from Decatur to Litchfield, sixty-one miles, was made in fifty-seven and one-half minutes, and from Mount Olive to Edwardsville, 22.5 miles, in seventeen minutes. The average speed was 63.3 miles per hour. The celebrated Irish mail of the London and Northwestern railway used to be scheduled from London to Holyhead at forty-five miles per hour for a distance of 263 miles.

DEATH OF JOHN WHITE.

John White, chief clerk in the freight department at Van Wert of the Pennsylvania company, died last night. He was taken ill last Sunday night, having been in the best of health previous to that time, and his sudden demise has caused much sorrow in Van Wert, where he was highly respected. All the Pennsylvania trainmen knew Mr. White and will be sorry to learn of his death.

INSPECTING THE LINE.

A. W. Johnston, general superintendent of the Nickel Plate, spent several hours in the city last night, coming here on train No. 3 and leaving early this morning on No. 1. This is one of Mr. Johnston's periodical visits and is has no special significance.

PAY DAY DELAYED.

The Pennsylvania pay car will be two or three days late in reaching this city this month. According to custom it is due here next Monday, but notices have been posted to the effect that it will not arrive until next Wednesday, April 18.

INDUSTRIAL NOTES.

Nickel Plate Engineer C. Merritt is sick and off duty.

Silas Miller is a new employe in the yards at the Wabash shops.

Supt. E. A. Gould, of the Wabash was in the city yesterday afternoon.

James Roper and Ed Mennewitch, of the Pittsburg blacksmith shop, are sick and off duty.

The Terre Haute car works are crowded with work and have on their pay rolls over 600 men.

Frank Schwanz has been transferred from the carpenter to the tin department of the Wabash shops.

On Sunday twenty cars loaded with silver bullion passed over the Big Four, shipped from western mines.

Dr. E. F. Wagner has returned from York, Pa., where he went last Friday to see his father, who is ill.

Chief Dispatcher W. H. Tigar is spending a day or two in Chicago in the interest of the department he represents.

Engineers P. Titus and Charles Swinney and Fireman D. L. Mason, of the Pittsburg, are off duty on account of sickness.

Eugene McCann, axle inspector for the Wabash company, went to New Albany this morning to inspect a number of axles.

Engineer J. C. Lynch resumed his run on the Nickel Plate yesterday, after an absence on account of sickness in his family.

Charles Wright this morning quit a position he held in the Wabash machine shop. He is undecided as to his future movements.

Conductor Kitselman, of the Nickel Plate, has been granted a few days' absence from his duties and will visit friends in another city.

Brakemen Joseph A. Deahl and J. C. Stewart, who were enjoying a few days rest, have returned to their work on the Nickel Plate.

J. D. Quinn has taken a position as yard brakeman with the Pennsylvania company. He was formerly a Grand Rapids and Indiana brakeman.

Ernest Bonjour, a boilermaker at the Bass works, resumed his duties in that establishment this morning. He had been attending court a few days.

C. S. Crane, general passenger agent of the Wabash, arrived in the city at 6:10 this morning and remained here until 11:55, when he left for Toledo.

Yesterday the Indiana Manufacturing company bought two 150-horse power boilers of the Bass Foundry and Machine company, delivery to be made this week.

Boilermaker H. Sinnegan had a foot painfully injured at the Kerr Murray works yesterday by a heavy iron falling upon it. He will be crippled and unable to work for some time.

Thomas J. Foley, general inspector of transportation of the Pennsylvania lines west of Pittsburg, was in the city yesterday in an official way and to spend a few hours with his relatives.

The heavy gale of yesterday made it impossible to run some of the heavy freight and passenger trains on schedule time. No. 3, on the Nickel Plate, was an hour late in reaching this city.

W. T. Agerter, of Lima, Ohio, was in the city yesterday on business with the Kerr Murray works, which is furnishing a number of castings for him. Mr. Agetor is engaged in the manufacture of churns.

John Hill has resigned his position in the Bass boiler shop. He has secured employment with the Fort Wayne Traction company, park line department, and will immediately commence work there.

Next Sunday the Big Four and the Cincinnati, Hamilton and Dayton roads will inaugurate the Sunday excursion business between Indianapolis and Cincinnati, the fare being $1.25 for the round trip.

The Baltimore and Ohio Southwestern is now working a day and night force at its shops in Washington, Ind., and employing the largest number of men in the history of the company. Its entire equipment is undergoing a general overhauling.

Edward Harrington and William Giffin have taken positions in the Kerr Murray works, the former in the foundry and the latter in the boiler shop.

John McDonald, a boilermaker who has been employed in the Wabash shops at Peru, has moved here and will work in the shops under Foreman G. G. Nicol.

Among the half-dozen or more shipments from the Electric works today were a car load of mast arms to Philadelphia and an incandescent dynamo to Morelia, Mex.

E. C. Allen, of the Grand Rapids and Indiana; W. H. Parmalee, of the Hoosac Tunnel, and A. Hughston, of the Union Pacific, traveling agents, were in the city yesterday.

There are over 160 names on the sick and disabled list of the Pennsylvania Voluntary Relief association on this division. The large number of sick members is due to the very inclement spring weather which has prevailed for the past four or five days.

N. R. Adriance, commercial agent of the Wabash railroad for Colorado and Utah, has been offered and has accepted a situation in the fast freight service of the Wabash at St. Louis. It is not yet known who will be his successor in the territory he leaves.

Louis A. Waterson has moved here from Garrett, Ind., and this morning he took a position in the Pittsburg blacksmith shop, where his brother has been employed for some time. Mr. Waterson was employed as a fireman on the Baltimore and Ohio road for several years.

John McLaughlin, a machinist, who has been working at the Bass shops for two years, resigned his place there last night with the intention of going to Duluth to work in ship building shops. Mr. McLaughlin worked in the electric works before going to the Bass works.

Conductor Sylvester McMahon took his run out on the Pittsburg last night for the first time in three weeks. He had a severe attack of the grip. Mr. McMahon is one of the oldest, in term of service, of Pennsylvania passenger conductors, and is popular with railway men and the public.

Indianapolis Journal: "It is proposed to further shorten the running time over the Pittsburg, Fort Wayne and Chicago. The improvements that have been going on for three years in the way of widening the roadbed, the modification of curves and reduction of grades making such increase of speed perfectly safe."

In the general offices at Boston of the Boston and Albany road there is in the accounting department a man who is eighty-three years old and has held his present position sixty years; he now receives $175 per month. His superior officers would prefer that he did not come to his office earlier than 9 a. m., but he never fails of being at his desk at 8 a. m., when the younger men appear, and no man in the service is more correct in his accounting and style of penmanship.

A party of New York Central locomotive engineers arrived in Denver on Sunday morning and will remain in the city until today. The party includes over 100 old-time engineers on the Vanderbilt lines, all being Brotherhood men. The party travels by special train. It left Buffalo March 20, at 10:30 a. m., and when it arrives at that place, April 21, at 7:50 a. m., it will have covered 7,403 miles in the states of New York, Pennsylvania, Ohio, Indiana, Illinois, Missouri, Tennessee, Mississippi, Louisiana, Texas, Arizona, California, Nebraska, Iowa, Wisconsin, Michigan and Canada.

Eastbound out of Chicago last week the all rail routes carried 206,917 tons of grain, flour and provisions, against 204,009 tons the preceding week, and 80,057 tons the same period of last year. This week traffic is not quite so heavy, though it will probably reach the 200,000 tons mark.

The work of tearing down the old Bee Line depot, near the viaduct on South Alabama street, Indianapolis, was commenced on Saturday. The depot was built in 1853 under the John Brough administration, and was enlarged in 1862.

Grand Master A. Dodge, of the Brotherhood of Railway Trainmen, with headquarters in Cleveland, was in the city yesterday in the interest of the order. He is on a tour of the cities wherein are lodges of the order. Mr. Dodge addressed a meeting of the lodge here yesterday afternoon.

Early yesterday morning fire destroyed a small trestle bridge on the Wabash road at a place called Monclove, near Toledo. Passenger trains detoured over the Baltimore and Ohio and the Cincinnati, Hamilton and Dayton roads, and were not greatly delayed, being able to make up lost time before this city was reached. Freight trains, however, were unable to get through until the bridge was replaced with a new one.

The Pennsylvania is planning unusually extensive improvements on its lines east of Philadelphia. The many improvements between Philadelphia and Pittsburg on the main line, which have been in progress for several years, are practically completed, and attention will now be turned to the New York division. A feature of the work will be the elimination of a large number of grade crossings. Through Newark and New Brunswick, N. J., the tracks will be elevated at great expense.

THE BOSSES DON OVERALLS

CHICAGO EMPLOYING PLUMBERS FINISH A CONTRACT.

A Job Left Incomplete by Strikers is Carried on by Men Who are Worth Millions.

Chicago, April 11.—Twelve men in overalls which were spotless and whose hands looked anything but accustomed to manual labor filed into the Marshall Field building, against which the unions have called a strike, and went to work.

They were employing plumbers, whose aggregate wealth foots well up into the millions. In order to fulfill E. Baggott & Co.'s contract on the building they volunteered last night to step into the breach made by the strikers and with the aid of such skill as remained to them after years spent in watching growing bank accounts, to finish the plumbing work in the structure.

Among them were M. J. Coroby, who, as he placed his soldering iron in the coals, might have been preparing to buy the whole block, for he is rated a millionaire.

And there was Thomas Conlin, whose wealth is estimated at half a million dollars.

Paul Radieski, said to be worth $200,000, worked with great activity and apparent enjoyment.

Frank Falk, Charles Herbert and ex Alderman Alexander Watson, all credited with liberal fortunes, were others in the volunteer ranks now warring against the Building Trades Council.

All was quiet around the big business block early today when the employers who forsook their desks to take up the soldering irons passed though a door guarded by a couple of gigantic special policemen and were observed from a safe distance, by the strikers, whose place they took.

THE GOVERNMENT DEFRAUDED

San Francisco, April 11. Five hundred pounds of plug cut tobacco have been seized in various local stores by internal revenue agents because the packages were insufficiently stamped. This tobacco, manufactured by a St. Louis firm, has been put up in packages weighing from an ounce and two-thirds to two ounces, and the packages had been uniformly stamped as weighing an ounce and two-thirds. Collector Thomas, who made the discovery of this revenue law violation, says that the fraud has evidently been carried on very extensively and he estimated that the cost to the government has been fully $50,000 a year. A general search for under-stamped packages has begun and all tobacco found to exceed the weight indicated by the stamps will be confiscated.

How to Avoid Pain

I have been afflicted with pains in the back and hips, and bearing down pains ever since I became a woman. Last spring I commenced using McElree's Wine of Cardui and Thedford's Black-Draught, and they have done me a wonderful amount of good, and I wish to recommend them to anyone, who suffers as I did.
MELISSA CREMEANS.

For nearly a century, Wine of Cardui has been helping women to avoid pain and suffering. This wonderful remedy has made a reputation for curing "female diseases" that no other medicine enjoys. Irregular and painful menstruation, leucorrhœa and falling of the womb are the most frequent female disorders. Few women escape them. None but a woman knows what they are. The terrible dragging pains and oppressive mental torture are beyond description. But Miss Cremeans' experience shows you can avoid this suffering and misery by procuring a $1.00 bottle of Wine of Cardui at your drug store and taking it as directed. Women will do well to keep a bottle of Wine of Cardui on hand for immediate use when sick headaches, pains in the back, abdomen, arms and legs, and other troubles coming from menstrual derangements appear. In this way many hours of suffering may be thwarted and the visits of the family doctor frequently made unnecessary. Wine of Cardui should be given every girl at the age of puberty. It is used with great success during pregnancy and the "change of life" and after child-birth or miscarriage. Thedford's Black-Draught, the companion medicine for the stomach, liver and kidneys, assimilates with Wine of Cardui perfectly.

For the last two months I have had pain in my back and bowels, and got no relief until I used McElree's Wine of Cardui and Thedford's Black Draught, and now I am up and doing my housework.

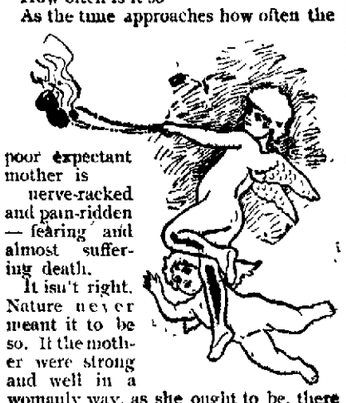
Baby's coming should be a time of joy and happiness. Fear should be forgotten and pain a stranger.

How often is it so?

As the time approaches how often the



poor expectant mother is nerve-racked and pain-ridden—fearing and almost suffering death.

It isn't right. Nature never meant it to be so. If the mother were strong and well in a womanly way, as she ought to be, there would be no danger and little pain.

The time of parturition is made comfortable and safe by the use of Dr. Pierce's Favorite Prescription. It is a medicine designed by a skilled physician—a specialist in the disorders and diseases of women—for the express and only purpose of putting the whole womanly system into perfect, vigorous health. It works directly on the organs involved in baby's advent and makes them strong, healthful and flexible. Taken during the whole period of gestation it insures the perfect health of both mother and child.

Mrs. Mollie E. Grimes, of Flomaton, Escambia Co., Ala., writes: "I have taken three bottles of your 'Favorite Prescription' and one bottle of your little 'Pellets' and oh, what an appetite they did give me. My baby is now three months old and weighs fifteen pounds and a half. When she was born she was the fattest little baby girl you ever saw. She was the largest one of all my babies and at the birth I had an easier and shorter time than I ever had. I am stouter and healthier than I ever was. I never will be without your medicine. May God bless you and your good medicines."

For obstinate constipation Dr. Pierce's Pleasant Pellets are the most perfect medicine ever devised. They give prompt, comfortable, permanent relief.

SUPT. STUDY EXPLAINS.

To The Sentinel:--The statement made in The Sentinel of last evening regarding a rule said to be adopted recently by the school trustees prohibiting children from the school yards and buildings until five minutes of the time of the ringing of the second bell is based upon an entire misunderstanding of the facts.

No rule whatever upon the subject has been recently adopted by the school board, nor is any such rule as has been criticised in existence. Our school hours in the city schools are as follows:

From 9 o'clock a. m. until 12, and from 1:30 to 4 o'clock p. m.

The first bell in the morning rings at 8:30, at which time teachers are required to be in their respective buildings and at which time the doors are opened for the reception of pupils. Pupils are not only admitted at 8:30, but encouraged to enter the buildings and go to their respective rooms, and discouraged from loitering about near the buildings.

However, as 9 o'clock is the hour for school to begin, no pupil could be compelled to present himself at school before that time. In the afternoon the first bell rings at 1:10, at which time the teachers are required to be in attendance to receive pupils, and the doors of the buildings are open for their reception, although school does not begin until the hour of 1:30.

It is absolutely necessary that some definite time shall be set for the opening of school premises for the reception of pupils in order that the teachers shall be present to supervise the conduct of pupils and see that injury is not done to school property. The first bell is rung in ample time for pupils to leave their homes when it begins to ring and reach the building before the second bell.

Unfortunately, very few of our public schools are provided with play grounds. In most cases the school building itself covers the greater part of the school lot, but even were there ample school grounds it would still be necessary for some time limit to be set at which pupils could be admitted to the school grounds, and we believe that the present time limit of admission to the school buildings of one-half hour in the morning and almost the same time in the afternoon is a reasonable limit.

ALMOST SMOTHERED!

Mrs. John Gehr, P. O. Box 13 Heron Lake, Minn., tells of a singular case. She writes: For 30 years I suffered from rheumatism so intensely that I could not sleep, but 7 packages of Gloria Tonic cured me completely. My rheumatism caused such smothering feeling that I thought I would choke, which also left me since taking Gloria Tonic. For sale at druggists. Price $1.00 a box.

Lord Roberts seems to be waiting for something to turn up.

Admiral Dewey affirms that he is in the presidential race to stay. And he will, but it is likely to be at home.

Indiana republicans have concluded to ignore the issue raised by the Porto Rican outrage. The platform makers and spellbinders may ignore it, but the people will not.

Mr. Macrum having arrived at that state of indignation where he can call somebody a liar, there is reason to believe a real hot inquiry into his charges may be forthcoming. Meanwhile, Mr. Macrum may put in his time reflecting that he has heretofore talked too much to himself.

Hon. W. D. Bynum gives it as his opinion that when there are in the senate enough votes to confirm him he will get the job to which the president appointed him. It must have been racking to the Indianapolis statesman's intellect to figure this out, but he seems to have done it and had left enough strength to announce the result to the world. Mr. Bynum is not dead yet—that is, not dead enough to bury.

The shame of her war on the Boers ought to come home to Great Britain with added intensity as she beholds the spectacle of the spirited and liberty-loving boys and girls of America contributing their pennies for the brave burghers of the South African republics. And it is no idle nor ignorant sentiment that moves these school children to give for the Boers. They know the history of their country too well not to understand why the Boers are so desperately fighting.

IT GOES TO THE PEOPLE.

The house yesterday surrendered its legislative prerogatives to the senate and passed the Porto Rican tariff outrage. It will go to the president, who will sign it and thus reverse himself on the issue of "our plain duty" to Porto Rico.

The constitutional questions involved will doubtless be determined by the supreme court, but the issues are now with the people for settlement. No legislative program since the settlement of the questions growing out of the civil war has aroused such indignant protest in which partisan lines were ignored as the Porto Rican tariff. Those who believe the constitution of the country extends over every mile of territory where our sovereignty is established were reinforced by those who were shamed and angered that there should be contemplated such a monstrous violation of national pledges as making subjects of the Porto Ricans and strangling them with a tariff.

The republicans cannot defend their course before the great tribunal of the people and they cannot ignore the questions that have been raised. It is one of the dominating issues of the campaign. Party platforms cannot make it more or less so.

NEW LAW NEEDED.

W. H. Ernst, the expert accountant of Bluffton, has just completed an examination of the books of Blackford county. The result of the investigation is that County Clerk Caldwell will have to return to the county $2,800; ex-Auditor Painter, $2,267, and other officers smaller amounts, aggregating a large sum of money. As a matter of fact, all county books should be examined at stated intervals and a law providing for that ought to be enacted. Settlement with no county officer should be made at the end of his term and his bondsmen released until it is shown that his accounts with the county are as they should be. The law could provide that the county council have power to order and direct such examination and the authority to employ an auditing board of experts to make the examination, such experts to receive a fixed per diem. It would add somewhat to the fixed expenses of the county, but it would save to the taxpayers many fold what it would cost. Errors springing from carelessness or discrepancies made by dishonesty could not be concealed and there would be no profit to officers in either case. The effect would be to compel honesty as well as the highest capacity in the administration of the public business. In no private business concern is a servant of great responsibilities released until he can show a perfect balance of accounts. There is no reason that public business should be conducted with less system and common sense than private business. Such a law would be a good thing for the people.

MR. HANNA'S CANDIDACY.

In nominating Mr. Robert B. Hanna, of this city, for congress the republicans of the Twelfth district have without doubt put forward the strongest available man they had. Mr. Hanna is young and an energetic politician. He is a fine speaker on the stump and a gentleman of very engaging personality. At home, where widely known, he is extremely popular and his popularity will grow as his acquaintanceship extends over the district. His ability and good character are unquestioned and he will attract to himself and hold the support of his party in the coming campaign, which he is well fitted by tastes and talents to make exceedingly lively from the spellbinder point of view. But there are momentous issues in this campaign whose importance rises vastly above mere considerations of the candidates who stand for them. If Mr. Hanna hopes to wipe out the normal democratic majority in this district he must sweep thousands of democrats from their ancient party moorings. Such an achievement will be a miracle of politics. Mr. Hanna has to face the hard proposition of Hon James M. Robinson's candidacy, for his renomination this year is practically a foregone conclusion. Mr Robinson is a finished politician and a campaigner who sets a swift pace He will go into the contest with the prestige of a splendid record of service in congress, a well-won repute as a statesman and a sincere esteem among the democratic voters for duty ably performed and devoted labor for his constituents. Mr. Hanna will run well and get more republican support than any other republican possible as a candidate, but we cannot see prospect of any greater achievement than making a splendid race and encountering a defeat that will not be discreditable to him. The Twelfth district is democratic and it will vote democratic this year.

BYNUM SAYS GOLD DEMOCRATS WILL NOMINATE ONE.

HE TAKES A SHOT AT JONES

SAYS DEMOCRATIC CHAIRMAN IS A TRUST-MONGER.

WILL IGNORE THE QUESTION

STATE REPUBLICANS ON THE PORTO RICAN ISSUE.

Indianapolis, Ind., April 12.—W. D. Bynum, who has arrived here from New York, is out in an interview scoring silver democrats and denying that the gold democrats have abandoned their position, and will support the ticket nominated at Kansas City. He says Bryan and silver will be reaffirmed and that Jones will again be chairman of the democratic national committee. "This man Jones will be thus honored," said Bynum, "despite the fact he belings to one of the biggest monopolies in the country, and the democratic national platform will declare against trusts, too, mind you, but such little inconsistencies as that amount to nothing with such men as are now running the party. I believe the gold edemocrats will put a national ticket in the field after the other parties hold their conventions. I am confident that my appointment as a member of the United States board of general appraisers will be confirmed, and fully appreciate what is behind the opposition to the appointment.

GEN. HARRISON MAY PRESIDE.

Muncie, Ind., April 12.—The suggestion made here yesterday that former President Benjamin Harrison be selected for the permanent chairmanship of the Indiana state republican convention is meeting with favor. There has been trouble deciding between Senators Fairbanks and Beveridge for the honor, and Harrison's name has been suggested as a compromise.

The republican primaries last night to select delegates to the republican state convention were the most exciting in the history of the city. The most notable result was the defeat of Cyrus R. Heath, brother of First Assistant Postmaster General Perry S. Heath, who made a big fight to be elected delegate. It was reported that Cyrus Heath desired to vote for Perry S. Heath as a delegate to the national republican convention. The county delegation is for Durbin for governor.

WILL IGNORE THE QUESTION.

Indianapolis, Ind., April 12.—Republican political leaders, who have long been in quandary as to what the state convention should do regarding the Porto Rican affair, have come to a conclusion. They have decided that it would be unwise, with Senator Beveridge and Congressman Crumpacker arrayed against the administration on the question, to force a clash with their following by insisting on a plank favoring Porto Rico, and the latter will not be mentioned. It will be disposed of in a general resolution indorsing the administration. It was discovered that the following of Beveridge here and that of Crumpacker in his district will come to the convention with more than 200 votes—in fact, close to 300. This strength awed the administration supporters, and they thought it wise to get out of the dilemma the easiest way.

ODD FELLOWS ANNIVERSARY.

The eighty-first anniversary of the establishment of the Independent Order of Odd Fellows occurs this month and the various lodges of that order and the Daughters of Rebekah have been urged to celebrate the event. The following has been received here from M. H. Chapell, grandmaster of the order in Indiana: "In accordance with the time-honored custom, and in obedience to the mandate of the grand-sire of the sovereign grand lodges of the Independent Order of Odd Fellows of America, I, Milton H. Chapell, grand master of the grand lodge I. O. O. F., of Indiana, do direct and hereby enjoin all subordinate and Rebekah lodges and members thereof, within the jurisdiction of Indiana, to take appropriate action, and observe, in commemoration of the birth of Odd Fellowship of America, it being the eighty-first anniversary of our order."

NEW BUG HEADED THIS WAY.

Humanity is just now threatened with another plague which puts the 17-year locusts, the army worm, the potato bug and the kissing bug away back in the list of back numbers. It comes from New Mexico and is especially noted for its ferocity. It is the terrible "blood-sucking nose bug," and its work is closely allied to that of the kissing bug. Its bite is often fatal. It has just left its home in New Mexico and is said to be working north rapidly. It is of a bright speckled color larger than a beetle, and thirsts for animal blood. This bug is said to have an especial fondness for human gore and should it invade this country in any considerable numbers it may become necessary for people to wear masks for protetcion like dogs in dog days. After we get this bug and the bubonic plague, which is also coming our way, we will be about as well fixed for life destroyers as any nation on the face of the earth.

GAS COMPANY BUYS A FARM

GIGANTIC PUMPING STATION TO BE ERECTED.

The Station Will Be Four Miles From Hartford City—Gas for Fort Wayne.

The Fort Wayne Gas company is preparing to carry out the agreement recently made with the city council. The Bluffton News of Wednesday has the following:

"The junket through the Blackford county gas field several weeks ago by the city officials of Fort Wayne and the officers of the Fort Wayne Gas company has begun to bear fruit. Yesterday the Fort Wayne Gas company bought Lewis McGeath's sixty-two-acre farm in section 20, Harrison township, Blackford county, and the company will immediately erect a gigantic pumping station on the land.

"The farm is four miles northeast of Hartford City, and lies just across the track from the town of Mollie. Besides the pumping station the company will erect a boarding house for the accommodation of its employes.

"H. C. Paul, president of the Fort Wayne Gas company, and G. Max Huffman, the general superintendent, have been in the east for some time looking at gas engines, with a view to using that kind to run the pumps of the new station.

"If the engines can be furnished in time it is likely that five of them will be installed, each to be 650 horse power. The plant at Bluffton is operated by steam and the experience here has taught them that there would be great saving in a year's time by using natural gas engines for motive power.

"This mammoth pumping station, representing 3,250 horse power, will be used to pump the gas out of Blackford couty. Two eight-inch pipes and two six-inch pipes will be used by the company to conduct the gas into Fort Wayne and Bluffton with the enormous motive power used in pumping the fuel through the mains is safe to say that it will not be very long until the rock pressure in that part of the county at least will be materially lessened."

COMMISSION READY TO SAIL.

San Francisco, April 13.—All the members of the Philippine commission are now here except Henry C. Ide, of Vermont, who is expected today. Prof. Bernard Moses, the California member, will entertain his colleagues at the University club today, after which they will hold a formal meeting to elect a secretary. The commission expect to sail for Manila on the transport Hancock about the 16th inst. They are all accompanied by their families. The clerical force to accompany the commission consists of a secretary, assistant secretary, Spanish secretary, translator and a private secretary for each member. There will be forty-three people in the party. The ladies and children are to be left at Yokohoma for a month until the commissioners have secured houses and made everything ready for their comfort.

BEATEN BY STRIKERS.

Chicago, April 12.—Strike sympathizers eluded the guards at the Marshall Field building today and assaulted two men. A foreman, who was asked by two men for work, upon replying that no union men would be taken, was struck by both men, who then made their escape. The second assault was made upon a non-union man who, with his companions, was on his way to the building. He was singled out and severely beaten by three men, who also escaped. Fifteen hod carriers and three plasterers were brought into the building early without being molested and were put to work. The guards around the building have been doubled.

CLOSE OF THE CONVOCATION

MASONS CONFER DEGREES ON CLASS OF TWENTY.

Darius Council Expresses Sympathy for John L. Davis, of Auburn —The Banquet Program.

Darius council, Princes of Jerusalem, last evening conferred the fifteenth and sixteenth degrees upon a class of twenty candidates. It was the close of the spring convocation of Scottish Rite Masons, and the class was composed of Thomas J. Creel, Angola; Robert H. Carpenter, Angola; Oliver P. Coffin, Poneto; Harry C. P. Coover, Fort Wayne; Samuel M. Foster, Fort Wayne; Charles E. Fields, Geneva; Louis C. Hunter, Fort Wayne; Conrad Kettler, Fort Wayne; B. Paul Mossman, Fort Wayne; Frank Mulligan, Fort Wayne; Joseph W. Mitten, Fort Wayne; Miles M. Newman, Ossian; J. C. Hatfield, Bluffton; Thomas N. Roach, Fort Wayne; Darwin A. Sweet, Fort Wayne; David E. Smith, Decatur; Henry I. Smith, Fort Wayne; Walter R. Seavey, Fort Wayne; Ralph McGee, Fort Wayne.

At the banquet, Masons from many towns in this section of the state surrounded the tables. The address to the class was delivered by H. G. Keegan, and the response was made by Samuel M. Foster. Dr. B. Von Sweringen responded to the toast, "Masonic Charity," and P. A. Randall in a few remarks expressive of the deepest feeling presented the following resolution:

"Whereas, For the first time in many years the genial face of our brother, John L. Davis, is missed from our convocation, and

Whereas, We learn with regret that his absence is due to his own illness; therefore, be it

"Resolved, That the brothers here assembled extend to him their heartfelt sympathy and earnestly hope that he may be early restored to health and again be able to meet with us in future convocations."

The resolution was unanimously adopted by a rising vote. Many of the visitors left last evening for their homes.

MEMORIAL.

Memorial preamble and resolutions of St. Mary's chapter No. 203, of the Order of Eastern Star, on the death of Brother Horace G. Ellenwood:

Whereas, It has pleased Almighty God to remove from the scenes of his earthly toil our beloved brother H. G. Ellenwood, of Chapter No. 203 O. E. S.

Whereas, In the Divine Providence our beloved brother has been stricken down by the cold hand of death, his body returning to the mother earth and his unfettered soul winging its way into the presence of his Father and God.

Resolved, That while humbly bowing to the Divine will, we deeply deplore this irreparable loss—to lose a good man from our circle is an irreparable loss; to lose a good member of our chapter how much more their seats are vacant, never more to be filled; their voices are hushed, never again to be heard in all the pilgrimage of our remaining earthly toils.

Resolved, That our sincere sympathy be extended to the bereft family of the deceased.

Resolved, That a copy of these resolutions be sent to the family of the deceased and also be spread upon the records of the chapter and published in the Fort Wayne Sentinel.

Losing Flesh.

More than half the sickness and disease in the world comes from exhausted nerves. When the nerves are weak the digestion is imperfect, and the blood becomes deficient in nutritive principles. The heart is affected, circulation retarded, liver and kidneys deranged and the general health suffers. People who are losing flesh, are nervous, restless, cannot sleep at night, are irritable of temper and easily excited. There is one thing lacking to make the harmony of the system complete and that one thing is nerve force. Dr. Miles' Nervine makes nerve force. It is the exact remedy for that large class of feeble-minded, thin-blooded and nervous persons whose greatest need is rest and quiet for the weary brain and nourishment for the wasting nerves and failing strength. It feeds and cures.

"My wife was nervous, weak, restless, could not sleep, and nothing that she ate did her any good. In spite of all her physicians could do for her, she continued to fail and waste in flesh until she had lost sixty three pounds. I finally bought a bottle of Dr. Miles' Nervine and she began taking it. In four days she wanted to start cleaning house—the first time she had felt able to work in eleven months. She could go to bed at night and sleep soundly until morning, and she began gaining in weight. In three months she had regained her lost flesh and weighed ten pounds heavier than before her illness." GEO. B. RATHBUN, 65 Bridge St., Springfield, Mass.

OFFICERS CHOSEN.

ELECTION BY THE STATE A. O. U. W. GRAND LODGE.

FORT WAYNE MEN HONORED

MESSRS. HENCH AND KESLER GIVEN OFFICE.

GUILTY OF MANSLAUGHTER

BUSBY MURDER TRIAL ENDS AT KOKOMO.

Terre Haute, Ind., April 12.—The Indiana grand lodge of the Ancient Order of United Workmen has selected Shelbyville as the meeting place two years hence and elected the following officers:

Past Grand Master Workman—G. R. Hench, Fort Wayne.

Grand Master Workman—T. D. Neal, Frankton.

Grand Foreman—J. B. Mitchell, New Albany.

Grand Overseer—W. W. Robb, New Harmony.

Grand Recorder—Fred Baker, Evansville.

Grand Receiver—James Cox, Terre Haute.

Grand Guide—M. A. Young, Indianapolis.

Grand Inside Watchman—A. M. Barron, Elkhart.

Grand Medical Examiner—Dr. A. J. Kessler, Fort Wayne.

The Degree of Honor, the women's auxiliary, elected the following officers: Grand chief of honor, Mrs. Comparet, Fort Wayne; grand lady of honor, Mrs. Sarah Baxter, of Auburn; grand chief of ceremonies, Mrs. Marie Capsadell, Evansville; grand recorder, Mrs. Alice McGrew, of Evansville; grand receiver, Mrs. Jennie Williams, of Mt. Vernon; usher, Mrs. Hatie Paul, of Princeton; watchman, Mrs. Lottie Brown, of Rushville, and Miss Louise Becker, of Terre Haute.

At the morning session there was considerable debate on the order's law relating to suicides. The present law does not permit payment to beneficiaries of suicides who have been members for less than two years. A resolution to strike out the limit was defeated by an overwhelming vote.

MUNICIPAL CONTENTION.

Logansport, Ind., April 12.—Municipal ownership will figure in the spring election to the extent of the management of the city's electric light plant. There is a wide diversity of opinion as to the method of operation and the price per thousand watts for the incandescent lighting service. The plant was established under a republican administration, which fixed the price to consumers at 7 cents per thousand watts, and later reduced it to 5 cents, which rate was in effect when the democrats secured a majority in the council. The income from the plant has not been sufficient for some time to meet expenses, and the party papers have indulged in a controversy, the republican organ contending that the plant would be self-sustaining if the proper economy was observed, and the democratic organ maintaining that no individual or party can make the plant pay at less than 7 cents per thousand watts. The city council now is composed of six democrats and four republicans, and the terms of four democrats and one republican expire this spring.

HOTEL FOR INDIANAPOLIS.

Indianapolis, April 12.—Stockholders and directors of the Claypool hotel, which is to be erected on the site of the famous Bates house, from the balcony of which President Lincoln made a speech on his way to Washington to be inaugurated, met yesterday and adopted plans for the new hostelry. The Claypool will be eight or ten stories high, and cost $1,000,000. Already $750,000 in stock has been taken. This hotel, with the Coliseum now projected, will give Indianapolis facilities for accommodating national conventions. A committee, headed by Henry Lawrence, proprietor of the Bates, went to Chicago to inspect the hotels of that city and secure pointers.

FORTUNES FROM OIL.

Wabash, Ind., April 12.—Fortunes have been cleaned up in the Indiana oil field in the last eighteen months, since the advance in the price of crude oil. M. S. Howe, of this city, has cleaned up nearly $30,000 in that time, and now has an annual income of $15,000 from his oil wells alone. The stockholders of the Nonotuck Oil company have made $40,000 in the rich valley field, and there are a number of persons who have realized from $10,000 to $15,000.

GUILTY OF MANSLAUGHTER.

Kokomo, Ind., April 12.—After twenty hours' deliberation a jury last night found Farmer William Busby guilty of manslaughter in the killing of Orin Springer last November. Springer being a trespassing quail hunter on the Busby farm. The penalty is an indeterminate sentence of from two to twenty-one years in the northern prison. Busby is wealthy, a veteran of the civil war a son of Capt. Barnabas Busby, a veteran of both the Mexican and civil war. The jury was composed of farmers exclusively.

INTERESTING CAVE FOUND.

Osgood, Ind., April 12.—A cave has just been discovered in Shelby township, south of this place. Benjamin Harrell, John Titus and B. F. Sands discovered an opening on the side of the cliff overlooking Big Graham creek. They secured candles and explored the cave three miles in. Beautiful forms of nature were found on every hand. In one of the chambers a petrified snake was found, in another a running stream, in a third wonderful deposits of gypsum and in a fourth stalactites and stalagmites of beautiful formation.

MOTHER DIED OF GRIEF.

Decatur, Ind., April 12.—Mrs. Christopher Kessler died at her home at Chattanooga, Mercer county, Ohio, yesterday of worry and grief over the recent marriage of her daughter Lula in this city last week to Warren Detro, a hostler at a cheap lodging house, where Detro and his bride are now living. Previous to her marriage Miss Kessler taught music in Fort Wayne.

WORKING ON TABERNACLE.

North Manchester, Ind., April 12.—Actual work has been begun on the construction of the large tabernacle at Harter's Grove, which is the meeting place of the annual conference this year of the German Baptists. The seating capacity will be in the thousands, and the location is very desirable. The city is making every preparation for the event.

A FATAL OPERATION.

North Manchester, Ind., April 12.—Jacob Frederick, the elderly farmer who underwent an operation for appendicitis, and who was thought to be convalescing, suffered a relapse and died.

KILLED BY HIS OWN WEAPON.

Winamac, Ind., April 12.—Otto Peter Budd, a youth of sixteen, was killed, in Beaver township, yesterday afternoon, by the premature discharge of his gun, the load striking him in the chin and tearing off part of his head.

BIG SUIT AGAINST MILLS.

Wabash, Ind., April 12.—A damage suit was begun yesterday in the federal court against Lehman, Kraus & Rosenthal, owners of the Peru Bagging mills, by John Doniphan, of Brooklyn, N. Y., who asks judgment for $250,000. Infringement of a patent process of making jute bagging is alleged. The plaintiff asks that the defendants be enjoined from further use of the process.

LACK OF FUNERAL CARRIAGES.

Indianapolis, April 12.—The body of Harry Keyes, the Indianapolis boy who was killed in the blowing up of the battleship Maine, was not buried here yesterday, as was planned, on account of a lack of carriages. Thirteen funerals took place in this city yesterday afternoon and the funeral director who had Keys' body in charge could not secure carriages enough for the cortege.

When the coffin was opened for complete identification a skeleton wrapped in a soldier's suit was found. The remains, however, were identified.

THE MARKETS.

Chicago, April 12.—The wheat market early showed some loss under the influence of lower cables, the larger Argentine shipments and reports of a favorable crop outlook. The rain west was said to have helped winter wheat and the cold was alleged to have been harmless generally. May opened ½c under yesterday at 66⅜@66⅞c, sold up to 67c and reacted to 66⅝c. Offerings were light and the demand in the pit was fair. Local receipts were 32 cars, none of contract grade. Minneapolis and Duluth reported 282 cars against 467 last week and 216 a year ago.

The session later was dull and the demand poor. May gradually worked down to 66⅛@66⅜c and closed weak, ⅛@⅛c under yesterday at 66⅛c. Selling today was mostly in small lots, but the heavy selling of yesterday told today considerably.

May corn opened ¼@⅜c down at 39⅜@39½c on lower cables and in sympathy with wheat. Trade was fairly active early, some influential people being on the buying side. May touched 39¼c, recovered to 39⅜c and then eased off to 39⅛c. Receipts here were 426 cars.

The corn market closed weak a shade over the bottom, May ⅞@1c under yesterday at 38⅜@38⅞c. The dullness in the grain markets was due partly to the holiday tomorrow.

The provisions market was active and irregular. There was a good cash demand for lard and ribs at the decline shown at the beginning of the session, but long pork was thrown on the market in heavy quantities and met buyers at first only after liberal concessions had been made. On the break shorts covered and other demands improved, causing that product to rally. May pork opened 5c lower at $12.62½, sold off to $12.37½ and then recovered to $12.60. May lard opened 2½@5c down at $6.82½ and advanced to $6.92½; May ribs 5c depressed at $5.65, advancing later to $7.00.

As did corn and wheat so did the obedient oats market. May opened ⅛@¼c down at 24⅜@24½c, sold to 24½@24⅝c and then eased to 24⅜c. Receipts here were 133 cars.

THE CLOSE.

Prices at the close were as follows:

Wheat—April, 66¼c; May, 66⅛c; July, 67⅞c; Sept., 68⅜c.

Corn—April, 38⅛c; May, 38⅜@38⅞c; July, 39⅛@39⅞c; Sept., 40c.

Oats—April, 23¾@23⅞c; May, 24⅛@24⅜c; July, 24⅛c; Sept., 23¼c.

Pork—April, $12.67½; May, $12.67½; July, $12.80.

Lard—April, $7.00; May, $7.00; July, $7.07½; Sept., $7.15@7.17½.

Ribs—April, $7.00; May, $7.00; July, $7.00; Sept., $7.00.

Flax—Cash N. W., $1.73; Cash S. W., $1.73; May, $1.73; Sept., $1.23½; Oct., $1.18½@1.18½.

CHICAGO LIVE STOCK.

Chicago, April 12.—Cattle—Receipts, 11,500; market generally steady; good to prime steers, $5.00@5.85; poor to medium, $4.15@4.90; stockers and feeders, $3.50@4.90; cows, $3.00@4.50; heifers, $3.10@4.80; canners, $2.25@2.80; bulls, $2.75@4.40; calves, $4.50@6.75; Texas fed steers, $4.00@5.30; Texas bulls, $3.25@3.75.

Hogs—Receipts today, 26,000; tomorrow, 23,000; left over, 6,867. Market 5@7½c lower; top, $5.65. Mixed and butchers, $5.30@5.60; good to choice heavy, $5.45@5.65; rough heavy, $5.30@5.40; light, $5.30@5.50; bulk of sales, $5.45@5.52½.

THE DAY ON WALL STREET.

New York, April 12.—Owing to the decision to adjourn the exchange from this afternoon until Monday the shorts were inclined to cover and prices generally advanced. The gains in Sugar and Rock Island reached a point. Otherwise changes were fractional. There was some heaviness manifest in the metal group and in the local tractions.

Declines of 4½ in Third Avenue, 4 in Steel and Wire preferred and a point each in Steel and Wire common and Federal Steel had a dampening effect on the general market. Missouri Pacific advanced to 58½ and Union Pacific to 59 and stocks of the local corporations gained over a point, Third Avenue recovering almost all of the loss. Federal Steel and Steel and Wire recovered substantially, but the preferred stock of the latter continued to droop. The market was dull and hesitating in tone.

A drive against Sugar forced it down to 110, but not much effect was produced on the market outside of a few specialties. Support developed in Steel and Wire preferred and a recovery to 88⅛ followed. Pressed Steel, however, reacted 2¼. Buying of the Pacifics had a sustaining effect on the railroad list, but the demand for the grangers and trunk lines was light. Southern Pacific was prominent and gained about a point.

Operations in bonds were small, but the tendency was upward.

NEW YORK PRODUCE.

New York, April 12. Butter—Receipts, 4,413 pkgs; market barely steady. Western creamery, 17@20c; factory, 15@17c.

Eggs—Receipts, 17,058 pkgs; market easier. Storage western at mark, 12½c; regular packing, 12@12¼c; southern at mark, 11@11½c.

Sugar—Raw, firm; fair refining, 4c; centrifugal, 96 test, 4½c; molasses sugar, 3 13-16c; refined, firm.

Coffee—Market steady.

THE MONEY MARKET.

New York, April 12.—Money on call steady at 3½ per cent; prime mercantile paper, 4⅝@5 per cent; sterling exchange firm with actual business in banking bills at $4.87¼@4.87½ for demand and at $4.83¾ for 60 days; posted rates, $4.84½ and $4.88½; commercial bills, $4.83@4.84; silver certificates, 60½@61½c; bar silver, 59½c; Mexican dollars, 47¼c.

THE BOND MARKET.

SPREADS LIKE WILDFIRE.

When things are "the best" they become "the best selling." Abraham Hare, a leading druggist of Belleville, O., writes: "Electric Bitters are the best selling bitters I have handled in 20 years. You know why? Most diseases begin in disorders of stomach, liver, kidneys, bowels, blood and nerves. Electric Bitters tones up the stomach, regulates liver, kidneys and bowels, purifies the blood, strengthens the nerves, hence cures multitudes of maladies. It builds up the entire system. Puts new life and vigor into any weak, sickly, run-down man or woman. Price 50 cents. Sold by Dreier Bros., druggists.

GERMAN EDITOR DEAD.

Cleveland, April 12.—Carl Claussen, one of the best known German newspaper editors in the United States, died early today at the City hospital of Bright's disease, aged 56 years. Mr. Claussen was for several years editor in chief of the Illinois Staats Zeitung at Chicago, subsequently becoming the editor of the Waechter Am Erie, of this city. He came to this country from Germany in 1873.

A HORRIBLE OUTBREAK.

"Of large sores on my little daughter's head developed into a case of scald head" writes C. D. Isbill, of Morganton, Tenn., but Bucklen's Arnica Salve completely cured her. It's a guaranteed cure for Eczema, Tetter, Salt Rheum, Pimples, Sores, Ulcers and Piles. Only 25c at Drier Bros.

RELATED TO WASHINGTON.

Washington, April 12.—Ebenezer Burges Ball, the nearest surviving relative of George Washington, died at his residence in this city early this morning. He was 84 years of age and unmarried. Mr. Ball bore a striking resemblance to General Washington and it is said his photographs have been mistaken for reproductions of portraits of the first president. Mr. Ball was born in Loudon county, Virginia, but early in life went west as a pioneer and was at one time a scout and Indian fighter in the army. He came to Washington about thirty years ago and engaged in trade, during the last years of his life conducting by special permission a tobacco stand in the pension office.

FAMINE RIOTS IN INDIA.

Allahabad, April 12.—Several cases of plague have been reported at Cawnpore recently. A body of rioters yesterday attacked the Segregation camp and several persons were killed. The garrison and a force of volunteers were called out to suppress the uprising.

WRIT FOR DREYER DENIED.

Chicago, April 12.—Judge Dunne today refused the writ of habeas corpus asked in the case of former Banker E. S. Dreyer, who is under a state's prison sentence for the embezzlement of $316,000 of West Park board funds and recommitted him to the custody of the sheriff.

STEPHEN CRANE NEAR DEATH.

London, April 12.—Stephen Crane, the American novelist, who has been ill for some time, has suffered a relapse and the attending doctors are now almost hopeless of his recovery.

MARCH AND APRIL

Are the Most Disagreeable Months of the Year in the North.

In the South, they are the pleasantest and most agreeable. The trees and shrubs put forth their buds and flowers; early vegetables and fruits are ready for eating, and in fact all nature seems to have awakened from its winter sleep. The Louisville & Nashville Railroad company reaches the Garden Spots of the South, and will on the first and third Tuesdays of March and April sell round-trip tickets to all principal points in Tennessee, Alabama, Georgia and West Florida, at about half rates. Write for particulars of excursions to P. Sid Jones, D. P. A., in charge of Immigration, Birmingham, Ala., or J. H. Milliken, D. P. A., Louisville, Ky.

"MY OWN SELF AGAIN."

Mrs. Gates Writes to Mrs. Pinkham, Follows Her Advice and is Made Well.

"DEAR MRS. PINKHAM:—For nearly two and one-half years I have been in feeble health. After my little child came, it seemed I could not get my strength again. I have chills and the severest pains in my limbs and top of head and am almost insensible at times. I also have a pain just to the right of breast bone. It is so severe at times that I cannot lie on my right side. Please write me what you think of my case."—MRS. CLARA GATES, Johns P. O., Miss., April 25, 1898.

"DEAR MRS. PINKHAM:—I have taken Lydia E. Pinkham's Vegetable Compound as advised and now send you a letter for publication. For several years I was in such wretched health that life was almost a burden. I could hardly walk across the floor, was so feeble. Several of our best physicians attended me, but failed to help. I concluded to write to you for advice. In a few days I received such a kind, motherly letter. I followed your instructions and am my 'old self' again. Was greatly benefited before I had used one bottle. May God bless you for what you are doing for suffering women."—MRS. CLARA GATES, Johns P. O., Miss., Oct. 6, 1899.

SEVERAL KILLED.

A BUILDING IN PITTSBURG COLLAPSES.

A SCORE OF MEN ARE BURIED

NUMBER OF DEAD IS NOT YET KNOWN.

HARD WORK ON THE RUINS

STRUCTURE WAS WEAKENED BY REMOVAL OF WALL.

Pittsburg, Pa., April 12.—The big double front four-story brick building at the corner of Wood street and Second avenue, occupied by the Armstrong-McKelvy Lead and Oil company, collapsed today, burying a number of employes, customers and carpenters at work on the building beneath the ruins.

The disaster involved the entire front of the building, but fortunately the greater number of the imprisoned employes were in the rear of the building and escaped with slight injuries or none at all.

It is certain that two clerks were caught in the wreck and at least two customers were also imprisoned. In addition five carpenters were at work remodelling the interior of the store rooms, and of those but one had been accounted for. He was Harry Bowles and was working in the office in the rear of the building. He made a thrilling escape through a window with Miss Annie Stewart, the stenographer of the company, in his arms.

Only three dead bodies and three injured persons have so far been taken from the ruins. One body was identified as that of Oscar Bigel, a carpenter. Two others, a man and a woman, are unidentified as yet. Eugene C. Bernhardt, a salesman, is known to be in the wreck and it is supposed is dead. The injured recovered are: Noel Casper, injured internally; Michael Shang, leg broken and injured internally; unknown man, unconscious and in a serious condition.

The cause of the accident is ascribed to the weakening of the building by the removal of a partition separating the room formerly occupied by the company from one which had just been leased. The walls fell in from each side toward the center of the building and as the carpenters were at work in the middle of the building it is feared that they were all buried. A fire alarm was turned in at once and the department responded without delay, but ten minutes before the first fireman was on the scene there were hundreds of spectators gathered around. These were pushed back by the police to keep out of danger.

The front of the building was merely a mass of wrecked brick, mortar and woodwork.

The rear still stood up, but the walls were visibly swaying and occasionally sent down a shower of bricks as a warning to the curious not to venture too close. Notwithstanding the danger, one hundred men were soon at work searching for those who were caught in the ruins.

The work was necessarily slow and at 2 o'clock only three bodies had been recovered and three persons rescued alive.

About this time a portion of the third floor fell in and five of the searchers were caught in the debris, but they were promptly rescued and were not seriously injured.

FATAL MINE ACCIDENT.

Bellefonte, Pa., April 12.—At 9 this morning an accident occurred on one of the mine sidings of the Bellefonte and Snowshoe railroad, three miles east of Snowshoe, by which three men were instantly killed and one injured. One of the mountain shifting engines was returning empty from the Holt line to the main line at Snowshoe, when within three miles of the latter place the rails spread and the engine and a dozen cars were thrown over the embankment. The engineer, Al Rowan, jumped and escaped with his life, though badly injured, while Harry Temple, fireman; Calvin Temple, brakeman, and Al Beamer, hostler, were caught under the wreck and killed instantly. At this writing none of the bodies have been recovered from the wreck. Calvin Temple was married, the other two men killed, were unmarried.

HISTORIC CHURCH BURNED.

Concord, Mass., April 12.—The First Parish church, one of Concord's best known historic buildings, was destroyed by fire early today. The loss is $25,000.

BANKRUPTS DISCHARGED.

In compliance with the order of the United States court Deputy Clerk T. J. Logan is issuing final discharges in bankruptcy to James Kennel, of Angola, and Christopher Albright, of Fremont. The cases were voluntary petitions and have been pending in the United States court for some time.

ELEVEN WERE DROWNED.

London, April 12.—As the result of the wreck of a fishing boat on the North Cornish coast early this morning three fishermen and eight life boat men were drowned. The life boat went to the rescue of the imperilled fishermen and was upset in the attempt to save their lives.

NEWS GATHERED IN COURTS

JUDGE VESEY DISPOSES OF UNIMPORTANT MATTERS.

A $5,000 Breach of Promise Suit Is Filed—Change of Venue in Saloon Cases.

Judge Vesey resumed operations in grinding out justice today after a day spent in Auburn, launching the candidacy of R. B. Hanna for congress. This morning the judge was occupied in fixing issues and hearing arguments in cases of minor importance. In the case of Lewis A. Cartwright vs. the J. F. Shell Loan and Investment company et al. Judge Vesey rendered judgment for plaintiff in the sum of $354.12.

NOTES.

Mrs. Ada Magers has commenced suit for breach of promise against Anthony Conway, a brakeman on the Grand Rapids and Indiana railway. The plaintiff alleges that they were to have been married in June, 1896, and postponements were made from time to time until June, 1899, when defendant absolutely refused to enter into matrimony, although plaintiff always was and is willing to marry. The demand is for $5,000. F. H. Kleekamp is attorney for plaintiff.

The cases against C. E. Hunt and Charles Horstman, which were to have been tried before 'Squire Reyhouser Wednesday, were taken to 'Squire Ashley, of St. Joe township, on change of venue, and will be tried next Wednesday. The cases against "Dakota Bob" and other defendants were sent to 'Squire Bird, of Adams township, on change of venue.

John Erwin has been arrested on an affidavit signed by Howard Byall charging him with malicious trespass. The case has been set for hearing on Saturday at 10 a. m.

A petition has been filed for a joint ditch in Allen and Van Wert counties. The ditch starts in Richie and Prairie ditches, Van Wert county, and ends in Monroe township.

The last will of John D. Reichelderfer is filed for record. It was written twenty-six years ago. He leaves his property to his wife and children.

Margaret J. Potter sues Fietta Meiser et al. to quiet title to real estate. A. H. Bittinger is attorney

The case of Charles Pape vs. William Kaough has been set for trial in May. The defendant was given a verdict in the superior court two years ago and the decision was reversed by the supreme court and the case sent back here for trial.

Margaret J. Potter has commenced suit to quiet title against Fiatta Meiser and a dozen others. A. H. Bittinger is attorney for plaintiff.

INDIA FAMINE SPREADS.

Washington, April 12.—The state department has made public one of the reports upon which it based its statement to the navy department relative to the famine in India. This particular report is from United States Consul Fee at Bombay, and presents startling figures to illustrate the extent of the visitation.

Mr. Fee says that notwithstanding the season of acute distress has hardly commenced the returns far exceed those recorded during the initial stages of the famine three years ago. It then affected only 1,000,000 persons; now the figure is 3,500,000, and the daily expenditure is placed at $84,000. The famine area covers 300,000 square miles, with a population of 40,000,000, and there is a further area of about 145,000 square miles with a population of 21,000,000 in which more or less distress prevails and where relief already has been or will be given.

The consul says that the applications for relief are overtaxing the state authorities and are increasing at an appalling rate, the number of applicants at the relief works during the last week in January advancing 250,000 and bringing up the total to 3,500,000, with the most trying period still two months distant. The consul expresses a fear that the South African war will so divert the attention and contributions of Englishmen as to oblige India to fight the plague and famine alone.

HELP THE STARVING

An Appeal to Fort Wayne People to Do Their Mite to Assist the Sufferers in India.

SEND SUBSCRIPTIONS TO SENTINEL.

In all the world's history no more pitiful spectacle has been presented to human gaze than that of the millions of people in India who are today facing the horrors of starvation by reason of the famine. We in a land of plenty can not appreciate the sufferings of this distressed people, but the language of want is a universal tongue, and the entire world is hearing the cry.

The cause is a righteous and a worthy one, and it is gratifying to know that Fort Wayne has made a start toward doing its share for the relief of these suffering people. At the home of Mrs. John A. Thieme Monday afternoon the Ladies' Auxiliary of the City Y. M. C. A. held a meeting and voted $100 toward this laudable purpose.

To further the work The Sentinel will receive and acknowledge contributions for this cause, and will forward them to the international committee of the Y. M. C. A., at New York, which has a man in the field who will see that the fund is properly applied to the relief of the famine sufferers. Contributions may be forwarded to The Sentinel, and acknowledgement will be made in this column. Let there be a generous response. The subscriptions to date are as follows:

NICKEL PLATE LOST

SHERBURN CASE RESULTS IN VERDICT FOR PLAINTIFF.

DAMAGES FIXED AT $4,000

OTHER SUITS PENDING FROM SAME ACCIDENT.

CHANGES ON THE FINDLAY

CONDUCTOR WEED RETIRES—SUCCEEDED BY HOPPE.

The suit of Sherburn vs. the Nickel Plate, which had been on trial at Columbia City for two weeks, ended yesterday in a verdict of $4,000 for the plaintiff. In the fall of 1897 George Sherburn and his wife and little daughter were struck by a Nickel Plate train on a crossing at Kinzie, in Kosciusko county, and all were killed. The administrator of the estate, in behalf of the heirs, brought three suits of $10,000 each against the company and the one for the killing of Mr. Sherburn has resulted as stated in the foregoing. The other two suits are still pending, but are not likely to be settled soon. The railway company will appeal the case.

FINDLAY CHANGE.

John Weed, for several years conductor on the Findlay local freight train, surprised his friends yesterday by the announcement that he had retired from that position and that Mr. Hoppe, who had been a brakeman in Mr. Weed's crew, would hereafter be the conductor. The announcement was not well received, not because of any objections to Mr. Hoppe, but because Mr. Weed was most popular with the men and they would like to continue their association with him. Mr. Hoppe is also a well-liked man and will give the company good service, being an experienced railroader He has been on the Findlay about a year. Previous to that service he was employed as an engineer on a road in central Ohio. The promotion of Mr. Hoppe made room in the regular service for Abraham Sheppard, who had been on the extra list, and that gentleman is now a member of the local crew.

MR. HAYS REMAINS.

Indianapolis Journal: "A personal friend of C. M. Hays, general manager of the Grand Trunk, who was in the city yesterday, said the rumors of his retirement from that position originated among ex-officials of the Grand Trunk who have sore places. Mr. Hays was the first manager to place the system on a self-supporting basis and in a position to earn dividends for its stockholders, and they will not permit him to retire after his five years' contract terminates."

SHIPPED A BOILER.

The Bass Foundry and Machine company yesterday sent an 150-horse power boiler to Reed City, Mich., where it will be placed in the lumber mills of William Horner.

NEW LEGAL VERSION.

On June 11, 1892, W. H. Elliott, father of George C. and Nannie E. Elliott, and the husband of Lydia J. Elliott, was killed in a collision on the Missouri, Kansas and Texas road between McAllister and Muskogee, I. T. Suit was brought in behalf of the widow and children to recover damages from the railway company and it passed through the lower courts into the United States court of appeals at St. Louis, and that tribunal handed down an opinion yesterday It was claimed that Elliott's death was due to conflicting orders given the two trains, which ran together The defense was that the fellow-servant law applied to the case, but the lower courts held otherwise, deciding that there was a difference between a train dispatcher and trainmen, so far as being fellow-servants was concerned. Judges Caldwell and Thayer held with the lower court on this point, but Judge Sanborn dissented, holding that there was no difference and that the train dispatcher, being a fellow-servant with Elliott, the latter's heirs had no right to the damages sued for because of the carelessness of the dispatcher.

ON FRIENDLY TERMS.

Yesterday, for the first time in the history of the Pennsylvania railroad, a Baltimore and Ohio train sped over its rails between Pittsburg and Philadelphia. On this train were President Cowen, of the Baltimore and Ohio, and a party of officials, who had been with him on an inspection of the Baltimore and Ohio lines. The train consisted of a Baltimore and Ohio engine and five private cars and went as a section of the day express, at 8:15 in the morning. As an indication of the much-talked-of unity of interest of the two great companies, this is interesting. As for President Cowen himself, he is reported as saying that the trip was simply made through the courtesy of the Pennsylvania management and that he did not expect to meet President Cassatt in any other than a social way when he arrived at Philadelphia. This trip of the Baltimore and Ohio officials is expected to result in many improvements.

TWO CIRCUS TRAINS.

Two of the finest circus trains ever seen in this country passed east over the Pittsburg road last night. They belonged to Ringling Brothers, who are moving their circus and menagerie from the winter quarters in Wisconsin to Wheeling, Va., where it will organize more fully and open the show season. Nearly every car was new and those that had been in service before were newly painted and looked new. The dining cars, sleepers and coaches were as finely finished, apparently, as any in the regular railway service.

BRAKEMAN HURT.

H. Coats, brakeman on the Wabash, road, passed through the city last night, en route to his home in Peru. At Liberty, Ohio, yesterday, he fell from a box car and badly injured one of his arms. While no bones were broken, the muscles and tendons were strained to the extent that it will be several weeks before Mr. Coats can resume work.

"FIDO" READY FOR BUSINESS.

"Little Fido" the shop engine of the Wabash, will be in service again next Monday. This little locomotive is a relic of pioneer railroading, but it fills the purpose for which it was designed more fully than could a larger engine and will be found running about down there many years hence. It has just received general repairs and is practically a new engine.

INDUSTRIAL NOTES.

Nickel Plate Brakeman F. M. Werling is sick and off duty.

Nickel Plate Brakeman C. Compton is off duty on account of sickness.

W. G. Reynolds has been appointed to the tariff bureau of the Nickel Plate.

Brakeman David Waterson, who had been taking a rest, resumed his run on the Nickel Plate yesterday.

The Western Gas Construction company is putting in a fire protection system in its works in the east end.

Nickel Plate Fireman H. Mansfield is kept from his work on the road on account of the sickness of his wife.

H. G. Granger, of the Wabash offices, is suffering from a sprained back, the result of trying to lift a locomotive.

John Wells, Nickel Plate engineer, resumed work yesterday, after a ten days' absence. He had been visiting in Chicago.

Ore rates will be advanced about 20 per cent. May 1st. At least that is the present intention of all roads engaged in that traffic.

H. E. Baum, Nickel Plate brakeman, who had been visiting friends in Fort Seneca, Ohio, reported for duty on the road yesterday.

Mr. and Mrs. O. E. Lehman have gone to Chicago for a brief visit with friends. Mr. Lehman is employed in the Pittsburg lumber yards.

Should the weather continue fine for outdoor work the tracklayers of the Southern Indiana will reach the limits of Terre Haute by April 30.

H. F. Whitcomb, general manager of the Wisconsin Central road, passed through the city last night over the Nickel Plate, traveling in his private car.

The whitewashing apparatus was today removed from the new freight house of the Pittsburg to the new electric power station, which is to receive interior dressing.

Brazil, Ind., capitalists have leased 1,000 acres of coal land near Brazil and will at once commence sinking a shaft, which, it is stated, will strike the best block coal in Indiana. The Vandalia and the Chicago and Eastern Illinois run near the land and will put in necessary switches and compete for the business.

Machinists G. L. Harris and Charles Dunn, of the Pittsburg shops, are sick.

W. E. Davis, assistant trainmaster of the Pittsburg, is today looking after some private business at Crestline, Ohio.

G. W. Heine, a boilermaker at the Wabash shops, is sick and this morning he went to the company's hospital at Peru.

F. Slane and Patrick Scully, of the Pittsburg car shops, are taking a day or two off duty to look after some private affairs.

Philip Schopmann and William Heier, boilermakers at the Bass works, went to Van Wert this morning to do some work for the company.

Master Car Builder James A. Graham, of the Pittsburg shops, left last night for Allegheny and Pittsburg on business for the railway company.

A new platform is taking the place of the old one at the south side of the Wabash freight house. The new platform will be two feet wider than the old.

James G. Roper this morning reported for duty in the Pittsburg blacksmith shop, having recovered from a sickness which kept him at home several days.

Switch engine 373 was transferred from this city to Lafayette last night to take the place of engine 204, which comes here to go into the Wabash shops for repairs.

O. D. Ashley, president of the Wabash, emphatically denies that the Wabash will absorb the Wheeling and Lake Erie, which runs from Toledo to Martin's Ferry, 217 miles.

General Manager J. J. Wood, of the Fort Wayne Electric company, went to Chicago this afternoon and it is expected that he will return with a number of orders for electrical supplies.

Superintendent Blizzard, of the Big Four, has announced that the new passenger station at Wabash will be begun soon and completed this year. The structure will cost upward of $15,000.

Joseph T. Richards, engineer of maintenance of way of the Pennsylvania railroad company, sailed for Europe yesterday, to be absent two months. He was accompanied by his wife and daughter.

Theodore Dobler, clerk in the Pittsburg round house, went to Chicago this morning to meet and accompany his aged father to this city. The old gentleman resides in Racine, Wis., and is coming here to visit his son.

Engineer B. F. Campbell and Fireman W. O. Cunningham are sick; Engineer J. T. Bowden is looking after private business and Fireman J. Longbaugh is kept at home by the sickness of some member of his family.

Foreman Frank Salver, of the Pittsburg boiler shop, returned from Crestline last night and his wife and children will arrive here this evening and immediately the family will go to housekeeping on West Williams street.

Mr. and Mrs. C. D. Law were passengers on the Pennsylvania limited last night, en route east from their wedding tour. They will reside in Pittsburg. Mr. Law is now real estate agent for the Pennsylvania company.

Wabash engine 765, which has just left the shops in this city, went to Peru yesterday to enter the service. Engine 1050, from the Buffalo division, arrived here yesterday and was immediately taken into the shops for general repairs.

M. R. Contant, of Springfield, Ill. is in the city on business for the Wabash. He is chief clerk of the draughting department. Formerly he had charge of the air-brake car and while serving in that capacity visited this city often.

Richard Taylor is enjoying a week's vacation with his parents and friends in the city. Richard is now telegraph agent at Dixon for the Pennsylvania company and one of the brightest young fellows in the service. The Sentinel expects to be called upon to chronicle his promotion to a more important position soon.

JAPS CANNOT LAND.

San Francisco, April 12.—Thirty-three of 219 Japanese steerage passengers who arrived on the steamer Belgian King a few days ago have been refused a landing by the immigration officials. They have appealed to the secretary of the treasury, and pending a reply from Washington will be held here. The principal reason for their rejection by the officials is the discovery of evidence that the Japanese came here as contract laborers.
